

MADRAS RECORD OFFICE.

Government of Madras.

Public Works DEPARTMENT.

Cms dated 9-4-1858

G.O. No.	586	Press Mis.
3-4 Dated	31-3-	1858

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 9th April 1858.

No. 3. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 12th March 1858, No. 8055.

SIR,

1. I have the honor to forward a plan and estimate for constructing three Salt Koties at Saneecotta in the District of Canara, amounting to Co.'s Rupees (1,300) one thousand, and three hundred.
2. In the Yadast No. 87 dated 19th January 1858, the Collector brought to the notice of the District Engineer that the Mailany Koty required only some repairs for immediate use and that the other two Koties at Nuckricka and Maustee should be immediately re-built, their walls having fallen down by the inroads of Rats, and their roofs partially sunk. He also stated that the urgency of the work was such, as not to admit of estimates being submitted for sanction, and requested the District Engineer to proceed with the repairs without loss of time.

1 Plan.
1 Estimate.
1 Extract from Yadast No. 87 dated 19th January 1858, from the Collector of Canara.
1 Letter from the District Engineer of Canara No. 648, dated 11th February 1858.

3. Under these circumstances I beg to solicit the sanction of the Right Honorable the Governor in Council to the amount of the estimate viz. Rupees (1,300) one thousand and three hundred, the rates charged for being moderate and sufficient.

Translation of an Extract from an Yadast No. 87, dated 19th January 1858, from W. FISHER, Esq., Collector of Canara; to Lieutenant J. GODDARD, District Engineer of Canara.

The thasildar of Ankola in his Urzee No. 237, states that 3 salt Koties at Saneecutta viz, Mailana, Nuckricka, and Maustee Koties require to be re-built with as little delay as possible, that Mailana Koty requires only some repairs for immediate use, and that the two should be immediately re-built their walls having fallen down by the inroads of rats and their roofs partially sunk down; If the estimate for the said 3 Koties are to be submitted for sanction as I fear it will take some time before receipt of orders on the subject and much inconvenience thereby be experienced for storing salt during the interval. I have therefore the honor to request you will forthwith order the execution of repairs to the buildings. I being of opinion that the same should be immediately carried out for storing salt.

I have also the honor to request your attention to the various applications from this office for several other Koties, and wish to be informed how the same have been disposed of.

Letter from Lieutenant J. GODDARD, District Engineer, Canara; to Colonel C. E. FABER, Chief Engineer dated Camp Honore, 11th February 1858, No. 648.

SIR,

- *1 Plan of 3 Salt koties at Saneecutta.
1 Estimate amounting to Rs. 1,300
1 Prescribed form of report No. 4.
1 Explanatory letter.

I do myself the honor to enclose documents as per margin* and to request that sanction for the execution of the work contemplated may be obtained on emergency.

No. 4. ORDER THEREON, No. 586; dated 31st March 1858.

The Right Honorable the Governor in Council sanctions, for entry in the Budget of 1859-60, the estimate amounting to Rupees (1,300) one thousand and three hundred, submitted with the above letter, for re-constructing three Salt Koties in the Canara District, and requests that instructions may be issued to the District Engineer for repairing the present buildings at once, as required by the Collector.

(Signed) H. FORBES,
Acting Secretary to Government.

Salt Works

To The Chief Engineer,

The Secretary to Government,
P.W. Department.

Sir, I have the honor to forward as
1. Plan and Estimate for constructing
three Salt Works at Saniesotta in the
District of Canara, amounting to Rs.
Rupees 1300 / One thousand and three
hundred.

2. In the Gazette No. 87 dated 19
January, 1858, the Collector brought to the
notice of the District Engineer, that the
Maitany Work required only some repairs
for immediate use, and that the other
two Works at Niekricka and Mauntee
should be immediately rebuilt, their
walls having fallen down by the in-
roads of rats, and their roofs partially
sunken. He also stated that the ur-
gency of the work was such, as not to
admit of Estimates being submitted for
sanction, and requested the District
Engineer to proceed with the repairs
without loss of time.

3. Under these circumstances
