*Proceedings of the Madras Government, Public Works Department,  
1st March 1867.*

No. 12. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 4th February 1867, No. 3,061 B:—

\* Rupees 2,526.

I have the honor to submit, for the sanction of Government, a plan, specification, and estimate\* for enclosing a por-

tion of the old Parade ground in the lower Fort at Bellary, for the purposes of a wood-yard. At present we are obliged to leave all the logs lying about on this ground, as there is not sufficient space in the work-yard; they are sawn up on this ground and the wood is then taken into the yard to be worked up. In consequence of the exposed situation there is trouble to prevent the wood being stolen, and so, with the approval of the Major General Commanding the Division, who has given his consent to this piece of ground being enclosed, I have had this estimate prepared.

No. 13. ORDER THEREON, 1st March 1867, No. 632.

**CIVIL WORKS, No. 4.**

The Government see no sufficient reason for incurring the heavy expenditure which is recommended in this letter

to be made at Bellary on walling in a piece of ground to serve as a timber yard, and, while heavy demands are being made upon the public resources for undertakings of unquestionable utility for which money cannot be found, His Excellency in Council cannot consent to the diversion of funds to any but the most pressing works.
