No. 123. Read the following letter from the Executive Engineer, Wynaad, to the Secretary to Government, Department Public Works, dated Luckady, 26th February 1867, No. 34:—

1. With reference to your Memorandum No. 29, dated 7th February 1867, I have the honor to inform you that the moiety of cost of the bridge over the frontier nullah has not been realized. Owing partly to the question raised regarding the true boundary not yet decided, and partly to other works of a more emergent nature, as well as to the fact that a better site for a bridge of smaller dimensions had been discovered, it was arranged between Colonel Walker and myself that this work should not at present be proceeded with, but the allotment be applied to other works more needed.

2. All the other works named in the Memorandum are being vigorously pressed forward, and I have no doubt that the allotments will either be expended on them or be required to help other works, as will be shown in the statements now preparing in my office.

No. 124. ORDER THEREON, 7th March 1867, No. 685.

CIVIL WORKS. 17. Ordered to be recorded.
