*Proceedings of the Madras Government, Public Works Department,
8th March 1867.*

No. 141.

Dated 8th March 1867, No. 694.

IRRIGATION, No. 4.

1. In their Proceedings of the 28th June 1866, No. 2,043, the Government desired Mr. Fraser to forward, for transmission to the Superintending Engineer of the 7th Division, all the papers, plans, and surveys in his possession connected with the projects for the formation of reservoirs on the Neilgherries.

2. In a subsequent Order under date the 13th July 1866, No. 2,197, the Government sanctioned the continuance of an establishment, as per margin, to assist Mr. Fraser in the completion of the several plans and estimates which he was engaged in preparing. Amongst these were the estimates for two of the

reservoirs in question, and though eight months have elapsed since those orders were issued, the Government observe with regret that the call has not yet been complied with. Mr. Fraser will now report what progress has been made with the estimates for the reservoirs, and why the orders of Government directing the submission of the original plans of them have not been attended to. He will also state when the Government may expect to have the whole of the papers laid before them in a satisfactory form, accompanied by a copy of his "first report" to which allusion is made in paragraph 29 of his Memorandum of the 11th June 1866.

(True Extract.)
