REMARKS.

I. As the estimated outlay on this road is in excess of Rupees 10,000, the sanction of the Government of India to the execution of the proposed improvements is necessary. In bringing the project before Government, the Collector remarks that " there can be no hesitation as to the expediency of the outlay in the interests " of general traffic, and more especially in view to the establishment of postal service " by a mail cart, for which object a local Company has already been formed."

II. No expenditure has been incurred on the Military Prison at Wellington pending the sanction of the Government of India to the estimate for that work, submitted with letter dated 21st May 1866, No. 1,615. From the Memorandum from the Inspector General of Military Works, dated 28th June 1866, it appears that the estimate has been referred to the Military Department for consideration, and as at this period of the year it will be impracticable to spend on the building the whole amount of the Budget allotment should sanction be now received, it has been thought expedient to utilize the funds by appropriating a portion to other objects.

III. The Superintending Engineer having brought to notice that the prosecution of the Chilka canal project has been greatly retarded by cultivation and inundation, and that he does not expect to be able to spend the full amount of the grant made for it in letter dated 27th July 1866, No. 680A, a portion of the money has been diverted as shown in this Statement.

IV. The Superintending Engineer having surrendered this amount as unlikely to be spent on the new Commissariat Godown at Cannanore, its appropriation to the enclosure of the new Burial ground at Cannanore, for which no other funds can be spared, was authorized.

V. The minor work grant having been exhausted, these works have been undertaken from a sum of Rupees 20,000, which it is expected will remain unappropriated from the allotment of Rupees 73,494 for the Godavery Anicut.
