Sir

I have the honor to report with reference to G.O. No 616 of 28th February 1867, that with no allotment of funds in the current year it will be impossible to do much towards building a New Moonsiff's Cutcherry at Purpenangady before the commencement of next monsoon. There are no other Public Works going on in the neighbourhood, & labour and Superintendance cannot be spared for pushing on this particular building to the detriment of works of much more pressing importance already in hand in Calicut Range. Materials can be collected, the foundations laid, & the wood work put in hand before and during the Monsoon if funds are promised, but it will take some months after the monsoon to complete the buildings.

I have &c &c
