Proceedings of the Madras Government, Revenue Department, 8th March 1867.

No. 145. Read the following letter from the Magistrate of North Arcot, to the Secretary to Government, Revenue Department, Fort Saint George, dated Chittoor, 27th February 1867, No. 12:—

1. I have the honor, with reference to the Order of Government dated 14th January 1867, No. 110, Revenue Department, to report that there is only one room in the Talook Cutcherry at Wandawash available for the custody of prisoners, and that this is used both as a Subsidiary Jail and Lock-up. The superficial dimensions of this room are 15 × 9 feet. As it is obviously desirable that "under trial" prisoners should be kept separate from "short sentenced" prisoners, and the existing accommodation is in all respects defective, it is proposed, by an adaptation of a part of one side of the present Cutcherry, to provide four new wards, marked B, C, D, E, for the detention of prisoners of both classes, male and female. By some further trifling alterations at point marked E in plan, a sitting room for the Tahsildar is likewise secured.

2. The proposed shed is to take the place of a thatched pandal in front of the Talook Cutcherry, and is intended for the accommodation of the suitors and village officials who have to attend before the Tahsildar or Sub-Magistrate.

3. From the Statement submitted with my letter of the 21st November last, No. 75, the Government will find that the average number of prisoners confined daily in the Subsidiary Jail and Lock-up at Wandawash, was two in June, seven in July, one in August, and two in September. The statistics do not shew how many of these were males and how many females.

4. I know the Wandawash Cutcherry well, and concur with the Superintending Engineer and Joint Magistrate, that the additions and modifications in the original building provided for in the plan are most desirable. I should mention, that since the present Cutcherry was built, the area of the talook was largely extended during the re-distribution of boundaries which took place some years ago.

No. 146. ORDER THEREON, 8th March 1867, No. 575.

Miscellaneous.

1. The additions and alterations proposed are approved, but ventilators should be placed in the wards.

2. Orders will be issued in the Department Public Works for the execution of the work when funds are available
