Proceedings of the Madras Government, Public Works Department,
19th January 1867.

No. 386. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Waltair, 9th January 1867, No. 234 :—

1. In reply to Order No. 3,718, 21st November, I have the honor to observe that the Range Officers in Ganjam have their time already so fully occupied that I cannot take any steps towards even preliminary examination of any project; and for myself I should fear that an establishment of Surveyors, without an Officer to supervise them, would be of little use.

2. As, however, Captain Darrah is of opinion that the great plain lying between Injelly and Berhampore could be irrigated by a channel taken of the Injelly river, a little distance above the Jeyamangalam anicut, (and judging from the eye it looks practicable,) I would suggest his being allowed the service of an establishment for the purpose of investigating.

3. I have requested both him and Mr. Lever to search for spots where it might be practicable to form reservoirs, and so to store up some of the water brought so copiously down in rainy weather by the numerous feeders of the tributaries of the Rooshkoolea. The Boady tank affords to both a good pattern of what is needed.

No. 387. ORDER THEREON, 19th January 1867, No. 190.

CIVIL WORKS, No. 83.

3 Surveyors at Rupees 150.
3 Draughtsmen at ,, 60.
12 Lascars at ,, 7.

Recorded, with reference to G. O. No. 93, dated the 11th January 1867, which communicated to the Superintending Engineer the sanction of the Government of India to the entertainment of the establishment marginally noted for the investigation of large irrigation projects in the 1st Division.

Actg Supdg Engineer 1st Dn

To,
Colonel C. A. Orr R.E.
Secretary to Government P.W.D.

Sir,

In reply to Order No. 3718. 21st Novr
I have the honor to observe that the
Range officers in Ganjam have their
time already so fully occupied that
I cannot take any steps towards even
preliminary examination of any project
and for myself I should fear that an
establishment of Surveyors, without an
officer to Supervise them, would be of
little use-

2. As however Captn Darrah is of
opinion that the great plain lying between
Iujilly and Berhampore could be irrigated
by a Channel taken off the Iujilly river
a little distance above the Seyamangalam
Annicut; (and judging from the eye it looks
practicable) I would suggest his being
allowed the service of an Establishment
for the purpose of investigating.

3. I have requested both him and
Mr Lever to search for spots where it might
be

be practicable to form reservoirs and so to store up some of the water brought so copiously down in rainy weather by the numerous feeders of the tributaries of the Rooshkoolea- The Boady bank affords to both a good pattern of what is needed-
