Proceedings of the Madras Government, Public Works Department,
21st January 1867.

No. 404. Read the following Endorsement of the Consulting Engineer for Railways, dated Madras, 9th January 1867, No. 3:—

Read the following letter from the Agent and Manager of the Madras Railway Company, to the Consulting Engineer for Railways, dated Madras, 8th January 1867, No. 7.

I have the honor to forward, for your information, copy of a Memorandum which I have received from Dr. Montgomery, the Secretary of the Sanitary Commission, with regard to the conservancy of the Railway Stations on the North-West Line, which will, I trust, be read by the Government with satisfaction.

MEMORANDUM.

1. Having occasion to travel from Moodanoor to Madras on 27th November 1866, I availed myself of the opportunity of inspecting the latrines at almost every station. I found the places intended for use by the Natives remarkably clean, and the urinals and water closets for Europeans were nicely kept. No offensive smell was observed in any of these places, and the number of people resorting to some of them appeared to be considerable.

2. Better arrangements might, however, be made as regards cart stands near some of the larger stations, and the ground in these places required a little cleaning. But even in them no palpable nuisance was observed.

(Signed) H. B. MONTGOMERY, M. D.,
Surgeon, Madras Army.

Submitted for the information of Government.

(Signed) J. C. ANDERSON, Lieut.-Colonel, R. E.,
Consulting Engineer for Railways.

No. 405. ORDER THEREON, 21st January 1867, No. 198.

Memorandum

Forwarding Copy of a Memorandum received from Dr Montgomery, with regard to the Conveyance of the Railway Stations on the S. M. Line.

Memorandum

Having occasion to travel from Madanapalle to Madras on 2nd November 1868, I availed myself of the opportunity of inspecting the Stations at almost every station. I found the places in question for the Natives remarkably clean and the Animals and Natives alike for European use miserably kept. No offensive smell was observed in any of them & the number of people residing to some of them appeared to be considerable.

2. Better arrangements might however be made as regards Cart stands near some of the larger stations, and the ground in these places required a little cleaning. But even in them no particular nuisance was observed.
