410-411 Mis.

Dated 21 — 1 — 1867

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department,
21st January 1867.

No. 410. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 8th January 1867, No. 3,942:—

1. On the 2nd January 1866, I authorized for execution, being within my powers of sanction, an estimate amounting to Rupees 125 for putting up hand-pumps with pipes, &c., to the drying and boiler houses of the Gun Powder Factory, for drawing off the water which accumulated in those houses during monsoons, prepared at the request of the Superintendent of the Factory.

1 Comparative Statement.

2. In actual execution, however, the improvements cost Rupees 320-0-11, in consequence of, as explained in the column of remarks of the accompanying comparative Statement, some extra works having had to be done.

3. The proportion the outlay has now assumed places it beyond my power to sanction, and I therefore request the formal sanction of Government to the expenditure.

4. Allotments, aggregating Rupees 159, have already been made for the work by me, and deducting this amount and a sum of Rupees 75, being the value of articles received from the Public Works Stores, from the total outlay of Rupees 320, there remains a sum of only Rupees 86 to be provided in funds, which I shall doubtless be able to obtain from savings later in the year.

Rupees	320	Cost of work.

No. 411. ORDER THEREON, 21st January 1867, No. 201.

ACCOUNT, No. 32.

Under the explanation afforded in this letter, the Government sanction the expenditure of Rupees 320 which is stated to have been incurred in fitting up hand-pumps with pipes, &c., to the drying and boiler houses of the Gun Powder Manufactory at the Presidency.
