G.O. No. 1316	Press ~~Mis.~~
572-73	
Dated 29. 4	1868.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
29th April 1863.*

No. 572. Read the following letter from the Superintending Engineer, 2nd Division, to the Secretary to Government, Department Public Works, dated Masulipatam, 6th April 1863, No. 1:—

I have the honor to forward a statement exhibiting losses which have occurred in certain building materials prepared some years ago in the Kistna District, and still borne on the "Stock" accounts of the 6th Range. Under the circumstances explained by the Range Officer, in the column of remarks, I solicit the permission of Government to strike off the value (amounting to Rupees 977-3-5) of the unserviceable materials, as enumerated, to "profit and loss."

Statement showing the bricks remaining in No. 6 or Deozarah Range, Kistna District, on 1st February 1868.

Building materials.

(1) The 17,100 Bricks were burnt by order of Colonel D. G. Tallard when he was in the 5th Range (say in 1862) for the construction of Weyir under Tunnel. All the good Bricks were used for the Tunnel, and left these bricks in the field, without any shelter, and part of the Bricks were unburnt & all these bricks are quite useless for works (2) the 2000 bricks were manufactured in 1867, for the road Tunnel of Bunder Road. All the Bricks were used leaving 2000 back (out of 59,000) those being found unnecessary - of these 850 good bricks and the remainder useless. All these Bricks were burnt in 1862 by order of Colonel Anderson for the masonry dam then proposed to be built on the Argale Road but the funds having not then been granted, the work kept in abeyance, these bricks were left in the Brick field without any shelter, & therefore 50,000 bricks were found lost on account of heavy fall of rain especially by cyclone. (3) 4,500 were supplied by Taluk Quereen Munesamy from his Bricks remaining at Boodapand for head sluice work they are all quite useless, and became such & therefore rejected.

Vide remark made above.

Vide remark made above.

80, Cansies of sand were carted in 1863, by order of Mr. Sage for the construction of 2 Bridges over the Ryne Branch Channel near Vintta - Pragada & Culvapamula then proposed, but the works having not been sanctioned, the sand which was lying on the bank of new Br. Channel has partly been washed away by the fall of heavy rain and winds.

I do hereby certify that the above names in charge of Taluk Districts V. Moonesamy, and C. Narraimany mooly have been examined & found as particularized above.
