*Proceedings of the Madras Government, Public Works Department,
30th April 1868.*

No. 621. Read the following letter from the Superintending Engineer, 7th Division, to the Secretary to Government, Department Public Works, dated Coonoor, 13th April 1868, No. 10 :—

I have the honor to submit a memorandum of the necessity of the proposed improvements and alterations to the Moonsiff's Court House at Oodamulpetta, called for in G. O., No. 1,008, of 30th March 1868.

MEMORANDUM.

The District Moonsiff of Oodamulpetta wrote as follows :—

1. Great inconvenience is experienced for want of sufficient accommodation for the Goomastahs of this Court, and for the parties. This Court consists of two rooms and a hall. One of the rooms is full of records, &c., and is small, and does not admit of much light. It is not fit for the Goomastahs to sit and write. The other is my private room, where I write judgments and do miscellaneous work.

2. The only place serviceable for me to hold Court, and for the Goomastahs and Copyists to sit, is the hall above specified. It measures 28½ feet east to west by 17½ feet north to south, besides the space occupied by my bench. The large table in front of my bench measures 12 feet and 2 inches. To the south of that table a space of 2½ feet is occupied by benches. To the south of it there is a space of 6 feet. This space is quite insufficient for nine Goomastahs and Copyists to sit with their desks and papers, and move about. Moreover, their being seated in the very place where I hold Court, creates an inconvenience to my work. To the north of the said hall there is a verandah lying east to west. It is both small and open, and the parties have to stay there when I hold Court. It is, therefore, not sufficiently safe for the Goomastahs to sit there with the records I, therefore, request that orders may be issued for erection of a verandah 12 feet wide to the south of the above hall, along the southern wall, similar to the one to the north of it, enclosed by a wall with four windows.

3. The Superintending Engineer was thereupon requested to take measures for execution of the repairs, &c., suggested by the Moonsiff.

4. The Superintending Engineer forwarded a plan, and on looking over it the Civil Judge was of opinion that the verandah at present in existence might, with necessary alterations, be utilized instead of the new verandah suggested by the Moonsiff, and the Superintending Engineer was requested to see to this arrangement.

5. The Civil Judge is of opinion that the necessity urged by the Moonsiff for more room is reasonable, and that the alterations should be carried out.

(Signed) H. D. COOK,
Civil Judge.

April 1868.

No. 622. ORDER THEREON, 30th April 1868, No. 1,342.

CIVIL WORKS, No. 76.

Under the explanation now afforded, His Excellency the Governor in Council sanctions the estimate amounting to Rupees 445 for the proposed improvements and alterations to the Moonsiff's Court at Oodamulpetta in the Coimbatore District.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

Memorandum

32

The District Munsiff of Podamale
petta wrote as follows:

Great inconvenience is ex-
perienced for want of sufficient
accommodation for the Gormastars of
the Court and for the parties. This
Court consists of two rooms and a hall.
One of the rooms is full of Records
and is small and does not admit of
much light. It is not fit for the
Gormastars to sit and write. The other
is my private room where I write
judgments and do miscellaneous
work.

The only place serviceable for
me to hold Court and for the Gor-
mastars and Copyists to sit is the
hall above specified. It measures
 $28\frac{1}{2}$ feet east to west by $17\frac{1}{2}$ feet
north to south besides the space
occupied by my Bench. The large
table in front of my Bench mea-
sures 12 feet and 2 inches. To the
south of that table a space of
 $2\frac{1}{2}$ feet

feet is occupied by benches. To the south of it there is a space of 6 feet. This space is quite insufficient for 9 foomastars and Cappidols to sit with their desks and papers and move about. Moreover their being seated in the very place where I hold Court creates an inconvenience to my work. To the north of the said hall there is a Varanda lying east to west. It is both small and open and the parties have to stay there when I hold Court. It is therefore not sufficiently safe for the foomastars to sit there with the records.

I therefore request that orders may be issued for erection of a Varanda 12 feet wide to the south of the above hall along the southern wall similar to the one to the north of it enclosed by a wall with 4 Windows.

The Superintending Engineer was thereupon requested to take measures for execution of the repairs suggested by the Munsiff.

The Superintending Engineer forwarded a plan and on looking over it the civil judge was of opinion that the Varanda at present in existence might, with necessary alterations be utilized instead of the new Varanda suggested by the Munsiff and the Superintending Engineer was requested to see to this arrangement.

The Civil Judge is of opinion that the necessity urged by the Munsiff for more room is reasonable and that the alterations should be carried out.
