Government of Madras.

Revenue DEPARTMENT.

G.O. No.	246.	Press ~~Mis.~~
^{496-97.} Dated	29-1-	18 68.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
29th January 1868.*

No. 496. Read the following Endorsement of the Inspector General, Indian Medical Department, dated Fort St. George, 27th January 1868, No. 41 :—

Read the following letter from the General Superintendent of Vaccination, Madras Presidency, to the Secretary to the Inspector General, Indian Medical Department, dated Camp at Munzeerabad, 17th January 1868, No. 40.

1. With reference to Docket No. 146, of the 11th instant, and the Proceedings* of Government, Revenue Department, No. 28, of 6th January 1868, I

* Herewith returned.

have the honor to report, for the information of the Inspector General, that six vaccinating needles and a supply of vaccine lymph have been forwarded to the Deputy Inspector General of Hospitals, Mysore Division, for transmission to the Zillah Surgeon of Mangalore.

2. I would take this opportunity of stating that a Mahomedan Vaccinator, from the Malabar Circle, was directed on the 17th December 1867 to proceed to Mangalore, and place himself under the orders of the Collector of South Canara, for employ in the Amendivi Islands.

3. I could not recommend the plan proposed in the Proceedings of Government, as regards the employment of Monigars as Vaccinators, as it may tend to much carelessness, and be the means of bringing vaccination into disrepute. The more so, as there will be no necessity now for the adoption of this plan, as a Vaccinator has already been detailed for work, and when the scheme now before Government for augmenting the establishment is sanctioned, arrangements will be made for posting a Vaccinator permanently to the Amendivi Islands.

Forwarded to the Secretary to Government, Revenue Department, with reference to Proceedings No. 28, of the 6th instant.

(Signed) W. MACKENZIE, M. D.,
Inspector General, Indian Medical Dept.

No. 497. ORDER THEREON, 29th January 1868, No. 246.

Miscellaneous.

Communicated to the Board of Revenue.

of Government as "organ" in
vaccination, as it may tend to much can be proposed in the
means of bringing vaccination into disrepute. The more
so, as there will be no necessity for the adoption of this
plan, as a Vaccinator has already been settled in work,
and when the scheme is now before you for consideration, the
establishment is sometimes, arrangements will be made for having
a Vaccinator permanently to the residence of the
State the lower to the
