I

*Proceedings of the Madras Government, Public Works Department,
27th January 1868.*

No. 541. Read the following letter from the Superintending Engineer, 4th Division, to the Joint Secretary to Government, Irrigation Department, dated Madras, 14th January 1868, No. 4,720:—

1. I have the honor to submit for early sanction an estimate, amounting to Rupees 800, for constructing according to the accompanying plan two calingulahs in the south bank of the supply
- 1 Plan of Calingulah.
1 Abstract Estimate, Rupees 800.

channel of the Melcupum large and small tanks in the Wallajah Range, North Arcot District.

2. The channel, which has its source in the hills to east of Lalpet, in the Wallajah talook, is at present unprovided with any proper outlets for the escape of excess water, and consequently gets destroyed during heavy rains. The contemplated new works are intended to obviate this, but estimates aggregating Rupees 1,845 having been, with the consent of the Collector of North Arcot, sanctioned for execution in this year, it becomes desirable that the proposed works be carried out at once, and in view to this I recommend that immediate sanction be accorded to the estimate on the understanding that the requisite funds be provided from savings later in the year.

3. According to the Ayacut statement furnished by the Collector of North Arcot, the revenue at present accruing from the Melcupum works is Rupees 839, and an increase of Rupees 340 is expected from extra water-rate in existing and from extended cultivation.

No. 542. ORDER THEREON, 27th January 1868, No. 279.

IRRIGATION, No. 32.

Sanctioned for immediate execution, the outlay being subject to future adjustment.

Supg. Engineer & Dir.

To.

The Joint Secretary to Govt.
Irrigation Department.

Sir,

Enclosure

1 plan of Kalingula.
1 abstract of the same

I have the honor to submit
for early sanction an estimate
amounting to Rupees 800 for con-
structing according to the accom-
panying plan two Kalingulas in
the South bank of the supply chan-
nel of the Melapum large and small
Tanks in the Wallajah Range North
Arcot District

The channel which has
its source in the hills to east of
Serpent in the Wallajah Taluk is
at present unprovided with any
proper outlets for the escape of excess
water and consequently gets des-
troyed during heavy rains. The
contemplated new works are
intended

intended to obviate this, but esti-
mates aggregating Rs 1845 having
been with the consent of the
Collector of North Arcot sanctioned
for execution in this year, it be-
comes desirable that the proposed
works be carried out at once and
in view to this I ~~have~~ recommended
that immediate sanction be ac-
corded to the estimate on the
understanding that the requisite
funds be provided from savings
later in the year.

According to the Agent
statement furnished by the Col-
lector of North Arcot the revenue
at present accruing from the
melwospur works is Rs 839 and
an increase of Rs 340 is expected
from extra water rate in existing
and from extended cultivation.
