617-18	
Dated 30 . 1	1868.

Not to be folded or roughly handled

[Signature]

No. 617. Read the following Endorsement of the Quarter Master General of the Army, dated Fort St. George, 13th January 1868, No. 304:—

Read the following letter from Major-General W. C. McLEOD, Commanding Ceded Districts, to the Quarter Master General of the Army, Fort St. George, dated Bellary, 7th January 1868, No. 5.

1. Adverting to my letter No. 195, of the 28th ultimo, it must be evident to His Excellency the Commander-in-Chief that the Hospital of the 28th Regiment at Kurnool was as full as it could be. The Deputy Inspector General of Hospitals considered it most important, for the benefit of the patients, that the improvement to the ventilation in that portion of building called the Cholera Ward, but which is, in fact, at all times made use of to accommodate the present sick, should be made at once. The bath-room, too, in its present state, without light or air when the door is closed, is totally useless.

2. I have communicated with the Superintending Engineer on the subject; the work having before received the approval of His Excellency the Commander-in-Chief, but Orders of Government No. 253, dated 14th October 1867, No. 3,171, directing that its execution should be deferred, as no funds were available, prevents any thing being done. I would beg, however, that in consideration of the urgency of the case, and the very trifling expense, viz., Rupees 170, that the Government may be moved to place funds for the work, at the disposal of the Superintending Engineer.

3. Dr. Orr recommends that a wall shall be run up across the front and back verandahs of the said Cholera Ward, to isolate it from the other part of the Hospital. The cost of this will be very trifling indeed, and though this might stand over, yet it is for the consideration of Government whether it would not be advantageous to have the whole undertaken at the same time.

* Rupees 170. 1. Submitted with the Commander-in-Chief's recommendation that funds* should at once be granted for the purpose of improving the ventilation of the Hospital of the 28th Regiment at Kurnool.

2. The crowded state of the Hospital is in consequence of the number of admissions from fever, from which the Regiment has again suffered, though not so much as it did in the end of 1866 and beginning of 1867.

(By Order,)

Head Quarters Ceded Districts
Bellary 7th January 1868
No. 5
Major General W. F. Wood
Commanding Ceded Districts
The Quarter Master General
of the Army
Fort Saint George

Sir,
Adverting to my letter No. 195 of the 28th Ultimo, it must be evident to His Excellency the Commander in Chief, that the Hospital of the 28th Regiment at Kurnool was as full as it could be. The Deputy Inspector General of Hospitals considered it most important for the benefit of the patients, that the improvement to the Ventilation in that portion of building (called the Cholera Ward, but which is in fact at all times made use of to accommodate the present sick, should be made at once. The Bath room too, in its present state without light or air when the Door is closed, is totally useless.

I have communicated with the Superintending Engineer on the subject, the work having before received the approval of His Excellency the Commander in Chief, but Orders of Government No. 253 dated 14th October 1867 No. 3171 directing that its execution should be deferred, as no funds were available, prevents any thing being done. I would beg however, that in consideration of the urgency of the case, and the very trifling expense viz. Rupees 170, that the Government may be moved to place funds for the work, at the disposal of the Superintending Engineer.

3
We recommend, that a wall shall be run up across the front and back verandahs of the said Cholera Ward, to isolate it from the other parts of the Hospital. The cost of this will be very trifling indeed,
