OCTOBER.
Nos. 663-664

Church at Vizianagram — Proceedings Ecclesiastical Department, sanctioning the improvement proposed to the roof of the —, Vizagapatam District, at an estimated outlay of Rupees 1,340, communicated to the Officer concerned.

Proceedings of the Madras Government, Ecclesiastical Department,
20th October 1868.

Read the following papers —

No 17 From the Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, Fort Saint George; dated Dowlaishweram, 17th September 1868, No. 119.

Referring to G O, No. 951, of 24th March last, I have the honor to report that the cost of planking the inside of the roof of the Church at Vizianagram with dammer wood, and varnishing it, will be about Rupees 1,340, the details of which are as follow:—

	RS	A.	P.
359 Cubic feet Saulwood, wrought and put up for ceiling, at Rupees 2-12-0	989	3	9
26 Squares Carpenters', &c., work for fitting and fixing, at Rupees 2	53	0	7
174 Large Screws, at Annas 6	65	4	0
2,000 Small do. (per 100), at Rupees 3-2-0	62	8	0
2,000 Small Nails (per 100), at Annas 2	2	8	0
26 Squares varnishing to the roof ceiling, at Rupees 4.....	106	1	3
	1,278	9	7
Contingencies ..	61	6	5
Total...	1,340	0	0

2 The Executive Engineer of Vizagapatam states that the rates are moderate, and that there is no prospect of reducing the estimated cost. Captain Beatty's letter* on the subject is enclosed

* No. 282 of 29th August 1868

From Captain J. BEATTY, R E., Executive Engineer, Vizagapatam, to the Superintending Engineer, 1st Division, dated Waltair, 29th August 1868, No 282.

In reply to your letter, No 607, of 17th instant, and in returning its accompaniments†, I have the honor to inform you that the cost of saul or dammer wood planking at Vizagapatam would be about 3½ Rupees per cubic foot wrought and put up, and that I see no prospect of the work

costing less at Vizianagram Mr. Hamnett might possibly get his timber a little cheaper than it is to be had at Vizagapatam, but the labor for the work would probably cost more than here, and there would be a good deal of waste of labor owing to the peculiar position of the work—the inside of a lofty roof

2 A saving of a few Rupees might possibly be effected by using wood-oil instead of varnish, but this would not materially alter the cost of the work, and I cannot suggest any other means of reducing it

3 It will be observed that Mr Hamnett has made no special provision for scaffolding.

Transferred to the Ecclesiastical Department, with reference to the docket in that Department, dated 19th March 1868, and to the Proceedings of Government in the Public Works Department, No. 951, of the 24th idem

FORT SAINT GEORGE,
