constructed at the Gun Powder Manufactory.

2. The want having been foreseen by Captain Goddard, that Officer requested permission, in 1866, to procure the pipes, which was given.

3. The Superintendent of the Factory now writes, requesting that the work may be carried out as early as practicable; the reduction in the number of bullocks lately effected rendering the supply from manufactory means very precarious, and thus causing much inconvenience.

4. The work appearing urgent, I have permitted the present Executive Engineer to commence it in anticipation of sanction, which I trust may be accorded early from funds obtained by the following transfer:—

Rupees 1,350 from the grant Rupees 17,390 under the head Military for quarters for the Military Students of the Civil Engineering College—*vide* item No. 19 in Budget of 1868-69 (Imperial); funds from the head Civil Buildings having been provided for those quarters in G. O., No. 2,681, dated 21st August 1868.

No. 138. ORDER THEREON, 10th November 1868, No. 3,497.

MILITARY WORKS, No. 12.

The Government approve of the estimate of Rupees 1,350 for laying down pipes, and constructing a cistern, for the supply of water to the Overseers' quarters at the Gun Powder Manufactory, and, in anticipation of the sanction of the Government of India, authorize the outlay being met from the source marginally noted.

Balance available Rupees 2,200, of Item No. 26, Part II of Budget.
