*Proceedings of the Madras Government, Public Works Department,
11th November 1868.*

No. 154. Read the following letter from the Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Coimbatore, 20th October 1868, No. 135 :—

2 Plan and Estimate, No. 23, Rupees 340	1. I have the honor to recommend
1 Estimate, „ 18, „ 225	that the undermentioned estimates be
1 Do. „ 19, „ 250	provided with funds from the sum of
8 Estimates „ 23, „ 810	Rs. 1,352 alluded to in paragraph 3 of
	G. O., No. 3,257, of 15th October, viz. :—

	RS.	RS.
(1.) Screen wall to Plunge Bath at Wellington ...	340	
(2.) Alteration to Staff quarters' Privies at Wellington ...	225	

Total allotment for Coimbatore... 565

	RS.	RS.
(3.) Cantonment boundary stones at Cannanore... 810	810	
Less expenditure of 1867-68 ... 23	23	

Balance allotment for Malabar... 787

Total of available funds... 1,352

2. Items 1 and 2 are accounted for by the following extract of letter from the Deputy Inspector General of Hospitals to the Officer Commanding Convalescent Depot, Wellington, dated 27th June 1868 :—

Para. 3. “The frequenters of the plunge-bath require to be screened from the view of those occupying Nos. 1, 3, and 5 blocks; if this were done the bath, I am informed, would be much oftener used, this might be done by raising the wall at the end near the Barracks, as in its present state I also consider it very dangerous, as it is not sufficiently high to prevent children falling over into the bath.”

4. “The Staff Non-Commissioned Officers' latrines and bath-rooms at each end of the Staff quarters might be much improved, these consist, at each end, of four small rooms :—

“No. 1, with two seats for females and children, containing also an earth-box.
“No. 2, bath-rooms for females with water laid on.
“No. 3, bath-room for males.
“No. 4, has two seats and earth-box, &c., for males.

“No one family is responsible for the cleanliness of these rooms, and there is little, if any, privacy. By carrying out the following suggestions, each family would have a room to themselves, containing a bath and latrine, and be quite private, and be responsible for its cleanliness; these places would then be more frequently used than I understand they are now :—

“From Nos. 1 and 4 one of the seats in each should be removed to No. 2 and 3, and in their place a tub should be placed and water laid on as at present in Nos. 2 and 3, the expense would be very trifling, and general satisfaction would be given to the whole of the Staff Sergeants and their families by this simple arrangement.”

*Proceedings of the Madras Government, Public Works Department,
11th November 1868.*

3. Item No. 3 provides for carrying out G. O., No. 3,157, of 4th October 1866, with reference to the apparent delay in complying with which I have the honor to explain that the Range Officer was restricted by me to the use of granite stones; for supply of which he was at different times in treaty with four different parties, two only of whom even attempted to carry out their offers; but the stones brought by them proving unfit for the purpose, the Palghat Range Officer had eventually to be applied to for their provision from that distant part of Malabar. Meanwhile, the Cantonment boundary had been temporarily demarcated with wooden posts on receipt of the G. O. above quoted, and up to date Rupees 540 have been laid out on the permanent land-marks, for which the estimate now submitted provides.

4. In addition to the three estimates above discussed, I have the honor to submit for sanction and provision of funds another, amounting to Rupees 250, for a stone pavement and drain much required in front of the drinking-water fountain at Wellington, of which likewise the approval of His Excellency the Commander-in-Chief has been duly signified.
