Public Works DEPARTMENT.

G.O. No.	3521	Press
		Mis.
184-185		
Dated	12-11-	1868.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
12th November 1868.*

No. 184. Read the following Endorsement of the Superintending Engineer, 3rd Division, dated 19th October 1868, No. 2,603 :—

Read the following :—

Copy of a letter No. 463, dated 13th October 1868, from the Executive Engineer in charge of Kurnool Range, to the Superintending Engineer, 3rd Division.

1. In reply to your docket No. 1,802, dated 20th August, I have the honor to report as follows.

2. The present well at the Cholera Camp in the height of the hot season has an area of eight yards by four : and the depth that can be taken out of the well daily, without running it dry, and giving it a chance to fill again during the night, is two feet, then the quantity of water taken daily will be $24 \times 12 \times 2 = 576$ cubic feet.

3. Now if the Regiment moves into camp, the number of persons, including followers, for whom provision has to be made is, as I am informed by the Commanding Officer, 2,500. These at half a cubic foot, or three gallons a day per head, would require 1,250 cubic feet, and allowing for wastage, that would demand three wells similar to the one we now have, that is two besides the old one.

Forwarded to the Secretary to Government, Public Works Department, with reference to G. O., No. 2,584, dated 13th August 1868.

(Signed) A. S. MOBERLY, Major, R. E.,
Superintending Engineer, 3rd Division.

No. 185. ORDER THEREON, 12th November 1868, No. 3,521.

MILITARY WORKS, No. 17.

The Government defer passing final orders on the estimate of Rupees 2,800 for sinking two wells at the site of the Cholera Camp on the road from Kurnool to Nundial, until the question as to whether Kurnool shall continue to be a Military Station has been disposed of.
