*Proceedings of the Madras Government, Public Department,
28th October 1868.*

No. 163. Read the following letter from the Inspector General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 20th October 1868, No. 342.

I have the honor to report, for the information of Government, that as the Lock-Hospital in Popham's Broadway, although not yet quite completed, is now in a position to receive patients, I have, in communication with the Health Officer, directed the transfer to it of all venereal cases from the General Hospital and the Vepery Dispensary.

2. The male patients in the Vepery Dispensary will be transferred to the General Hospital; and the former Institution may, therefore, now be converted into a "Female Hospital" for ordinary diseases, the present female ward attached to the General Hospital being vacated.

3. The Vepery Dispensary will, however, require considerable alterations and repairs to fit it for its new purpose; and I would, therefore, solicit the sanction of Government to my associating with myself in Committee the Sanitary Commissioner and the Executive Engineer, for the purpose of preparing and submitting a report on this subject.

No. 164. ORDER THEREON, 28th October 1868, No. 1353.

The Governor in Council approves of the arrangements described in paragraphs 1 and 2 of the foregoing letter, and will be prepared to consider any report which the Committee (proposed to be formed) may have to submit on the subject of adapting the Vepery Dispensary to the purposes of a Female Hospital.
