*Proceedings of the Madras Government, Public Department,
28th October 1868.*

Read the following papers :—

No. 158. From the Sanitary Commissioner, Madras, to the Secretary to Government, Military Department, Fort Saint George ; dated Madras, 17th July 1868, No. 772.

Having had occasion to visit the Lines of the 41st Regiment at Perambore, at the request of, and in company with, the Executive Engineer of the 1st or Northern Range, with reference to the Order of Government noted in the margin, the existence of a great nuisance, in close proximity to the Lines of the Right Wing, came under my cognizance, and which I think it my duty to bring to the notice of Government, in view to such measures being taken as may be deemed necessary.

G. O., in the Military Department, No. 2708, dated 10th July 1868.

2. The nuisance is, the existence of a nullah running parallel with, and at a distance of about 100 yards from, the Lines, and which receives not only the sewage from an open masonry drain that terminates in it, but over which privies, some permanent and some temporary, have been constructed, and which discharge their contents into it. Further, the refuse from tanneries upon its banks finds its way into it.

3. This nullah, owing to the recent rains, is nearly full ; but, notwithstanding the dilution of the sewage and other filth poured into it, the stench from it was so overpowering that it was a sickening task inspecting it. The stench was considerable even at the Right Wing Lines of the Regiment, and I was assured by an intelligent Native Commissioned Officer that it was often very much worse.

4. The nullah is the same as that into which the Right Wing Barrack drain discharges itself, but at a point lower down.

5. Whatever steps be taken to extend the outfall of the regimental sewer, must be supplemented by measures calculated to remove the intolerable nuisance of the nullah higher up. In fact, if matters are allowed to remain as they are, the discharge of a little more sewage from the Lines can scarcely make them worse.

6. I would suggest, for the consideration of Government, that the Municipal Commission should be required to carry on the drain now discharging into the nullah to a point at least 500 yards from the extremity of the Lines, and that they should interdict the existing system of erecting privies over the nullah, or upon its banks, and should remove the tanneries.

7. Unless this be done, the outlay about to be incurred in extending the outfall of the regimental drains will be incurred in vain, so far as the influence of the mephitic emanations from this nullah upon the health of the troops, or of the neighbourhood, is concerned.

8. A sketch plan of this nullah, showing its proximity to the Regimental Lines, and the points at which the common drain and the regimental sewer discharge into it, accompanies this letter.

Transferred to the Public Department.

FORT SAINT GEORGE,
21st July 1868.

(Signed) C. S. ELLIOT, Major,
Offg. Dy. Secy. to Govt., M. D.

*Proceedings of the Madras Government, Public Department,
28th October 1868.*

Referred to the President of the Madras Municipal Commission, for his remarks.
FORT SAINT GEORGE, (Signed) R. S. ELLIS,
27th July 1868. Chief Secretary.

No. 159. From the Officiating President of the Madras Municipal Commission,
to the Chief Secretary to Government, Fort Saint George; dated Madras,
22nd October 1868, No. 855.

In returning the Sanitary Commissioner's letter to Government, dated 17th
July last, No. 772, referred to the President for his remarks on 27th idem, I have the
honor to report that a proposal has been submitted by this Department to the
Superintending Engineer, 4th Division, for providing for the sewage of the Peram-
bore Lines, and also for diverting the sewage from the Cosapettah Nullah, and
when this work is carried out the nuisance complained of by the Sanitary Commis-
sioner will be entirely removed.

2. The delay that has occurred in replying to this reference is owing to the
Executive Engineer having been engaged for a considerable time on the Water Dis-
tribution Project, and will I trust be excused.

No. 160. ORDER THEREON, 28th October 1868, No. 1351.

Resolved that the letter from the Officiating President of the Municipal Com-
mission, Madras, be communicated to the Military and Public Works Departments.

*Proceedings of the Madras Government, Public Works Department,
16th November 1868.*

No. 274. Read the following letter from the Superintending Engineer, 5th Division, to the Secretary to Government, Public Works Department, dated Vaniembady, 28th October 1868, No. 144 :—

- 6 Plans.
- 2 Abstract Estimates.
- 2 Specifications.
- 5 Abstract Estimates for out-offices.

1. With reference to G. O., No. 3,720, of the 29th of November 1867, I have the honor to forward for the sanction of Government the undermentioned estimates, accompanied by plans and specifications :—

Constructing a Talook Cutcherry, with Subsidiary Jail, at	rs.
Namkul	25,800
Constructing a Talook Cutcherry, with Subsidiary Jail, at Ahtoor	24,670

2. The proposed Cutcheries are in accordance with the standard plans sanctioned by Government in G. O., No. 3,552, of the 18th of November 1867. Owing to an oversight, fair copies of the plans have not been made in my Office, and it is not advisable to detain them any longer for that purpose. There is a grant of Rupees 15,000 in the current year's Budget for the Cutcherry at Ahtoor.

No. 275. ORDER THEREON, 16th November 1868, No. 3,566.

CIVIL WORKS, No. 38.

Talook Cutcherry and Subsidiary Jail at	rs.
Ahtoor	24,670
Do. do. at Namkul in lieu of estimate of Rupees 13,370, sanctioned in G. O., No. 2,881, dated 10th September 1866	25,800

Nos. 59 and 66.

The Government sanction the estimates for Talook Cutcheries and Subsidiary Jails in the Salem District marginally noted, and they resolve to draw the attention of the Superintending Engineer of the 5th Division to the orders conveyed in the Memoranda from this Office, dated 26th and 28th October 1868, regarding the prosecution of the works.
