No 308. From the Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Bhowany, 16th October 1868, No. 134.

1. In returning the paper bearing your Endorsement of 12th instant, with its accompaniments, I have the honor to state that the funds at my disposal for minor new works and repairs, under the head of "Civil Buildings" are very scanty, and unlikely to meet the ordinary calls of the 7th Division for the remainder of the official year. The requisition under note is, however, for new work and improvement to the Roman Catholic Chapel at Cannanore, and I conceive it can best be met by a transfer from Budget Item No. 120, viz, "Improvements to Subsidiary Jails in Malabar."

2 With reference to which item I take occasion to remark that it might best be utilised as follows, viz. —

	Rs.
1 Subsidiary Jails, Coimbatore District ..	10,000
2 Do Malabar do. ...	10,000
3 Do Canara do. .	6,115
4 Roman Catholic Chapel, Cannanore ..	2,585
Total	29,000

whereof estimates for the first are nearly ready on the instructions communicated with G O, No 2,340, of 22nd July 1868, and some work has been emergently taken in hand, also estimates amounting to Rupees 31,000 were submitted for the third, with my letter, No 109, of 31st August 1868; while no instructions as to Malabar Jails have yet been issued

Proceedings of the Madras Government, Financial Department,

21st April 1868.

No. 32 Read the following Proceedings of the Government of India, Financial Department, dated Fort William, 31st March 1868, Circular No. 1798

Accounts

The Budget Estimates for 1868-69 and 1867-68, submitted by the several local Governments and Accountants General, and the actuals for 1866-67, show a tendency to a rapid increase in the Civil Estimates of charges for petty construction and repairs. The serious attention of the several Provincial Officers of account is drawn to this circumstance, which may arise from a lax audit in their offices. No charge for petty construction, or repairs, that appertains to a building which comes within the category of Public Works, as defined in the Public Works Code, Chapter X, Section I, Arts 13 and 14, should be admitted in the Civil Department, however small may be its amount, and although it may have received competent sanction. The expenditure should be adjusted in the Public Works Department, from the Public Works allotment, even when it is incurred by Civil Officers. The instructions on this point in the Public Works Code, Chapter VII, Section II, Arts. 1, 2, and 7 to 20, are so explicit that there can be no misunderstanding between the local Accountants General and the Controllers of Public Works Accounts respecting the adjustment in the Public Works Department of such charges for petty construction and repairs as ought not to be paid in the Civil Department. Such payments in the Civil Department, if allowed to go unchecked, would add large sums, indirectly, to the Public Works allotment which is annually regulated according to the means of the Empire, and the Governor General in Council trusts that by a strict enforcement of the Audit Rules the Provincial Accountants General will be able to show a large diminution of the expense for petty construction and repairs in the actuals of the approaching year, and in the Budget Estimate of the following year.

Expenditure—Public Works.

With reference to Financial Circular, No 1798, dated 31st March 1868, ruling that no charge for petty construction or repairs that appertains to a building which comes within the category of Public Works, as defined in the Public Works Code, Chapter X, Section 1, Arts 13 and 14, should be admitted in the Civil Department, however small may be its amount, the Governor General in Council observes that, as the Public Works Code lays down specifically that all petty repairs of doors and windows, including the replacement of broken glass in the case of any Government building occupied by Civil Officers, whether borne on the Public Works books or not, should be provided for by Civil Officers, the orders contained in the Financial Circular above referred to had no reference to them, but only to cases where Civil Officers incur, as is often the case, expenditure on repairs to buildings borne on the rolls of the Public Works Department, and the charges on account of which are not of the description specified in paragraphs 5 to 7, Section 1, Chapter X, of Public Works Code
