*Proceedings of the Madras Government, Public Works Department,
18th November 1868.*

No. 356. Read the following letter from the Executive Engineer in charge of the Superintending Engineer's Office, 8th Division, to the Secretary to Government, Public Works Department, dated Madura, 29th October 1868, No. 1,706 :—

1. I have the honor to request sanction for a sum of Rupees 556-13-7 being written off to "profit and loss" being the loss sustained by the sale of old centering planks in the second Range, Madura District.

2. The old timber consisted of Murdoo, Mangoe, Vengay, and Teak-planks, which were procured for the construction of the Amaravutty bridge, commenced in the year 1855, the same wood was used again in 1866-67 in building the Shunmooganadi bridge, and was ordered to be sold last May, as articles of stock on which there had been no transactions for six months, and not likely to be required during the following twelve months. The centerings of the arches of the Shunmooganadi bridge were taken down more than eighteen months ago, and there is no prospect of another bridge being built.

3. The value of the planks, as entered in the books, was Rupees 674-11-7, and the sale proceeds amounted to only Rupees 117-14-0. It is, however, not much to be wondered at that a larger sum was not realized, considering that the wood had been on hand for twelve years, and had been turned to account in the construction of two large bridges.

No. 357. ORDER THEREON, 18th November 1868, No. 3,605.

ACCOUNT, No. 24.

Sanctioned.

36. Colonel C. J. O'Brien
Secretary to Government
Madras

I have the honor to request an account for a sum of Rupees 556-13-7 being written off to Profet and Soff; being the loss sustained by the sale of old Centering planks, in the 2^d Range, Madura District.

2 The old timber consisted of Murdoo, Minge, vengay, and teak-planks, which were procured for the construction of the Amaravathi Bridge, commenced in the year 1855. The same wood was used again in 1866-67, in building the Pummuganadi bridge, and was ordered to be sold last

last May, as articles of stock on which
there had been no transactions for 6 months,
and not likely to be required during the
following twelve months. - The carriages
of the arches of the Shunmoojenadi bridge,
were taken down more than 18 months ago,
and there is no prospect of another bridge
being built. -

3. The value of the planks as entered
in the books was Rupees 674-11-7, and
the sale proceeds amounted to only Rs
117-11- - It is however not much
to be wondered at that a larger sum
was not realized: Considering that this
wood had been on hand for 12 years,
and had been turned to account in the
construction of 2 large bridges. -

I have &c
