*Proceedings of the Madras Government, Public Works Department,
21st November 1868.*

No. 464. Read the following letter from the Superintending Engineer, 2nd Division, to the Secretary to Government, Public Works Department, dated Bezoarah, 12th November 1868, No 108.—

On lately twice visiting the 1st Range, I found the Range Officer, R. Carew, Esq, in a very shattered condition of health, from what he called low jungle fever. He stated that he would be glad to be removed to Cuddapah where, when on the Railway, he had enjoyed excellent health during many years. As the state of the Range is not improving under him owing, I presume, to his inability to attend to his work, and it is one of high importance, I trust that Government may grant his request, and, removing him to Cuddapah or some inland station, where his health may improve, send an energetic smart Officer to the Kistna, possessing, if possible, some irrigational experience.

No. 465 ^{*}ORDER THEREON, 21st November 1868, No. 3,660.

ESTABLISHMENT, No. 48

The Superintending Engineer of the 2nd Division will be requested to call upon Mr. Carew to obtain from his medical attendant and furnish a certificate of the number of days he has been under treatment for jungle fever, together with a statement of his case.
