Public Works DEPARTMENT.

G.O. No. 3557	Press Mis.
493C-495	
Dated 21-11-	1868.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
21st November 1868.*

Read the following papers:—

No. 493. From the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 30th October 1868, No. 3,702.

1. With reference to paragraph 2 of G. O., No. 2,915, dated 14th September 1868, I have the honor to enclose a letter from the Assistant Engineer, Mount Range, Madras District, submitting a list of stock materials borne on the Returns of his Range on the 16th October 1868

2. Adverting to paragraph 2 of the Assistant Engineer's letter, I recommend that a sum of Rupees 9-2-3, being the difference between the book and actual value of the drain-pipes, be written off to "Profit and Loss."

3. With respect to paragraphs 3 and 4, I have given instructions to Lieutenant Dorward to charge off the padlocks as he proposes.

4. The iron rods and copper sheets, &c, spoken of in paragraphs 5 and 6, as suggested by the Assistant Engineer, may be sold to the Public Works Workshop where the articles may probably be found useful. Permission is requested to write off the difference between the stock-value of these articles, and the price which the Public Works Workshop may give.

5. Adverting to paragraph 8, I will give the Assistant Engineer authority to sell the composition referred to by auction, and sanction is solicited to write off the loss that may accrue from this sale.

6. The subject of paragraph 9 of Lieutenant Dorward's letter has been explained to that Officer

7. The stock of the Mount Range will now be reduced considerably, and I have instructed Lieutenant Dorward to endeavour to the utmost to clear it off entirely, as I am of opinion that there is no necessity for maintaining any stock in a Range situated as the Mount Range is so near to Madras

—

From the Assistant Engineer, Mount Range, to the Superintending Engineer, 4th Division, dated Mount, 16th October 1868, No. 1,056

1. Adverting to your Endorsement, No. 2,993, dated 28th September 1868, on G. O., No. 2,915, dated 14th September 1868, I have the honor to forward a list of the materials borne on the stock account of this Range, at the date of this letter

2. The book-value of the "drain-pipes" is too high. The current rate is 5 Annas each, and this reduces the value of the whole to Rupees 67-13-0. I have to request, therefore, that the difference, Rupees 9-2-3, may be written off to Profit and Loss. The pipes are likely to be used within the next year

3. The first two sets of pallocks were sent, by the late Executive Engineer of the Range, to the Barrack Serjeant at Poonamallee. Their value, Rupees 54-10-0, might be fairly charged to the allotment for Military repairs

4. The other two sets are used in the Range Office and at the work-yard. Their cost, Rupees 25-12-0, might be debited to the allotment for repair to Civil buildings

5. The book-value of the old and new iron is now far too high. It was purchased when the Mount Range was under the charge of a District Engineer, and the bars are of a size that is

Govt. of (1868) Madras.

Total - 742 6 10

No 2 or Mount Range
16 October 1868

J. Howard Esq. M. A.
Assistant Engineer M. Range

No 1056 From The Assistant Engr
to The Deputy Engr
Mount Range
Kadav

Sir

Adverting to your endorsement No 2995
dated 28th September 1868, in P O No 2915
dated 14th September 1868, I have the honor
to forward a list of the materials borne
on the stock account of this Range, at the
date of this letter.

2 The book value of the drain pipes is too
high. The current rate is 0.5.0 each, and
this reduces the value of the whole to Rs 67.18.0
I have to request, therefore, that the difference
Rs 9.2.3, may be written off to profit
and loss. The pipes are likely to be used
within the next year.

3 The first two sets of saddles were sent
by the late Executive Engineer of the Range
to the Barrack Sergeant at Purnamallee.
Their value, Rs 54.10.0 might be fairly
charged to the allotment for military repairs.

1.30.3
Mr. 22/6/68

4. The other two sets are used in the Range Office and at the Workshop. Their Cost Rs 25.12.0. might be debited to the allotment for repairs to Civil buildings.

5. The book value of the old and new iron is now far too high. It was purchased when the Minto Range was under the charge of a District Engineer, and the bars are of a size that is of no use here now. If they were sold by auction, I would get little for them, but I think that they might be useful in the Public Works Workshops, in which case a fair value for them might be recovered.

6. The Copper sheets, rods, and nails might also be taken over for the Workshop.

7. The "House fittings" I expect to be able to recover shortly.

8. The "Composition for preserving wood from white ants" will be of no use to me. It would fetch almost nothing at an auction, but I would like to sell it, so as to get it off the books.

9. In the Controller's letter, it is stated that Rs 10.5.7. should be deducted from the total of this stock account on account of London supplies under the head "Small Stores", but I do not know to what he refers.

3. With respect to paras 3 & 4
I have given instructions to Lieutenant
Dorward to charge off the padlocks as he
proposes.

4. The iron rods and copper sheeting
spoken of in paras 5 and 6 as suggested
by the Assistant Engineer may be sold
to the P.W. Workshop where the articles
may probably be found useful.

Permission is requested to write off the
difference between the stock value of
these articles and the price which the
P.W. Workshop may give.

5. Adverting to para 8. I will
give the Assistant Engineer authority
to sell the composition referred to by
auction, and sanction is solicited to write
off the loss that may accrue from this
sale.

6. The subject of para 9 of Lieut.
Dorward's letter has been explained to
that Officer.

7. The stock of the Mount Range
will now be reduced considerably and
I have instructed Lieutenant Dorward
to endeavour ^{to the} utmost to clear it
off

CPY:

10. b. 7 referred to in para. 5 of my
report to Government of the 1st
September last, No. 2272, be taken
in reduction of the book value of Rupees 26.11.5.
the "Composition for preserving wood
from white ants". If this proposal,
which is made on the assumption
that the total of Lieut. Doward's
Statement includes "London Supplies",
be approved of, the cost of the
composition will stand in the
books of the Mowat Range at
Rupees 16.4.10, the difference between
which amount and the sum
realized by the sale of the article
by public auction will hereafter
be written off to profit and loss.
