585-86	~~Mis~~
Dated 27 . 11	1868 .

AR
Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
27th November 1868.*

No. 585. Read the following letter from the Special Executive Engineer, Wynaad, to the Secretary to Government, Public Works Department, dated Wynaad, Luckadie, 26th October 1868, No. 587:—

Rupees 3,96,470.

1. I have the honor, with the Budget proposals for the ensuing year for the Wynaad District, to forward explanation regarding the items in which there is an increase.

2. In Original Works, Civil Buildings, the increase is due to certain buildings emergently required at Manantoddy, the proposals for which have already received sanction.

3. That under head of Communications is caused by the cost of a number of bridges, the erection of which can only be delayed at the cost of keeping the roads, for which they are required, comparatively useless, unless at a heavy expense for temporary structures.

4. The increase under Repairs is owing to no deduction being made, as last year, for Superintendence, and there is an item for Rupees 1,500* for maintenance of the

ten miles of road connecting the Coorg country with the Manantoddy and Bowally road.

5. Under head of Establishment, nothing was estimated in the last Budget proposal for the salary of the Vythery Range Officer, the post being vacant at the time, an omission which is now supplied.

6. I am of opinion that, after the next official year, this head of expenditure may be materially reduced, both by reduction of Petty Establishment and the amalgamation of Wynaad into one Range; or at all events by suppressing the Vythery Range, and dividing the works therein between North and South Wynaad, the Officer in charge of the latter Range having comparatively little to do; but seeing the number of important works to be executed during the ensuing year, I am not prepared to recommend that step on the present occasion.

7. In conclusion, I would respectfully beg to represent that I am confident the whole amount that I have asked for can be easily expended, and that as reduction of establishment depends so entirely on the concentration and reduction in number, of the works still required to be executed, it will be more economical to give a larger grant for one year than to spread the expenditure over two.

No. 586.

ORDER THEREON, 27th November 1868, No. 3,713.

CIVIL WORKS, No. 91.

1. The Government will await the receipt of a survey and plans, accompanied with accurate estimates for the

undermentioned works, which are proposed for execution by the Officer in charge of Public Works operations in the Wynaad.

(1.) Improving road from the head of the Peria Ghaut to Manantoddy.

(2.) Constructing three iron truss bridges of sixty feet span, on the road from Manantoddy to the Coorg frontier.

(3.) Do. one do. of three bays of sixty feet span, across the Beypore river on the Coorg road.

Proceedings of the Madras Government, Public Works Department,
27th November 1868.

2. The estimate of Rupees 1,500 for the maintenance of ten miles of the road between the Coorg frontier and the Manantoddy and Bowally road in the Wynaad, is sanctioned for entry in the Budget of the ensuing year.
(True Extract.)

Colonel, R. E.,
Secretary to Government.

No 387.

Special Executive Engineer's
Office. Wynand, South Madras
26th October 1868. —

From, The Special Executive Engineer
Wynand.

To, The Secretary to Government
Department Public Works
Madras.

Sir, I have the honor with the

396,470. " " Budget proposals for the ensuing year
for the Wynand District to forward ex-
planation regarding the items in which
there is an increase.

In Original works Civil
Buildings, the increase is due to certain
Buildings urgently required at Mannar
Tridly, the proposals for which have already
received sanction.

That under head of Communica-
tions, is caused by the cost of a number of
Bridges, the erection of which can only be
delayed at the cost of keeping the Roads good
while they are required comparatively useless
unless

28/10/68

27/10/68

involve at a heavy expense for temporary structures. ---

3. The increase under Repairs is owing to no deduction being made, as last year, for Superintendence, and there is an item for Papers \$500 for Maintenance of the 10 miles of Road connecting the Goring Country with the Abanant road and Bowally Road. ^{* Estimate here -}
= with submittal.

Under head of Establishment nothing was estimated in the last Budget proposal for the salary of the Pythery Range Office, the post, being vacant at the time, an omission which is now supplied.

4 I am of opinion that after the next Official year this head of expenditure may be materially reduced both by reduction of Petty Establishment, and the amalgamation of Wynand into one Range; or at all events by suppressing the Vythery Range; and dividing the works therein between North and South Wynand, the Officer in charge of the latter Range having comparatively little to do; but seeing the number of important works to be executed during the ensuing year, I am not prepared to recommend that step on the present occasion.

In conclusion I would respectfully beg to represent that I am confident the whole amount that I have asked for can be easily expended, and that as reduction of establishment depends to entirely on the concentration, and reduction in number, of the works still required to be executed, it will be more economical to give a larger grant for one year than to spread the expenditure over two.

Sir,
Your most Obedient Servant.
