*Proceedings of the Madras Government, Public Works Department,
3rd December 1868.*

No. 77. Read the following Endorsement of the Chief Engineer for Irrigation, dated Fort St. George, 16th November 1868, No. 93:—

Read the following letter from the Superintending Engineer, 4th Division, to the Chief Engineer for Irrigation and Joint Secretary to Government, Public Works Department, dated Madras, 13th November 1868, No. 4,003.

- 1 Sketch.
- 1 Plan.
- 1 Estimate.
- 1 Ayacut Statement.

1. I have the honor to forward, for the sanction of Government, an estimate amounting to Rupees 950, illustrated by a plan and a sketch, for

constructing a sluice in the Poiney Western channel, at a point near Vellamulli, in Chittoor talook, Chittoor Range, North Arcot District.

2. It will be seen that there are no means at present of shutting off, when occasion arises, the drainage of the Permalcuppum, the Vellamulli, and other lands, which enters and flows down the irrigation channel, depositing a large quantity of silt in its course, and sometimes, by its very great volume, endangering the banks of several tanks to which the channel leads. The proposed sluice will obviate this danger by assisting in turning off the drainage waters (when they are not required) over the surplus calingula into the Poiney river.

3. The Acting Collector of North Arcot has approved of the estimate, and it appears that there will be an increase of revenue of Rupees 655, which is nearly sixty-nine per cent. on the intended outlay.

4. The amount being small, I would advocate the work being immediately carried out in anticipation of a provision of funds later in the year from savings.

The proposed work appears to me to be very necessary, and I would recommend the estimate for sanction under the following head:—

Regulating Works.

Main channels and branches... Rupees 950

(Signed) J. C. ANDERSON, Colonel, R. E.,
Chief Engineer for Irrigation.

No. 78. ORDER THEREON, 3rd December 1868, No. 3,774.

IRRIGATION, No. 6.

Under the circumstances explained in these papers, and seeing that the construction of the proposed head sluice will tend to improve the utility of the channels, and add to their remunerativeness, the Government sanction the estimate of Rupees 950, and grant authority for the work being proceeded with pending the adjustment of the outlay hereafter.

(True Extract.)

Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 4th Division.
" Controller of Public Works Accounts.
" Accountant General.
" Revenue Department.
" Chief Engineer for Irrigation.

Mr. Haughton has the honor to forward for the
next an estimate amounting to
estimated by a plan and a sketch
a sluice in the Porey Western

Channel at a point near Tellamulli in the
Chittoor taluq. Chittoor Range, North Arcot District.

2 It will be seen that there are
no means at present of shutting off when occasion
arises, the drainage of the Perimallappum, the
Tellamulli and other lands, which enters and
flows down the irrigation channel, depositing
a large quantity of silt in its course, and
sometimes by its very great volume endangering
the banks of several tanks to which the Channel
leads - The proposed sluice will obviate this
danger by assisting in turning off the drainage
waters (when they are not required) over the
surplus

surplus Kalingula into the Poiney River.

3 The Acting Collector of North Breet
has approved of the estimate, and it appears that
there will be an increase of revenue of Rs. 655,
which is nearly 69 per cent on the intended saving.

4 The amount being small, would
advocate the work being immediately carried
out in anticipation of a provision of funds
later in the year from savings.

I have the honor to be
