*Proceedings of the Madras Government, Public Works Department,
4th December 1868.*

No. 98. Read the following letter from the Secretary to the Government of India, Public Works Department, (Military Works,) to the Secretary to the Government of Madras, Public Works Department, dated Simla, 7th November 1868, No. 1,126 M:—

1. I am directed to acknowledge receipt of your letter, No. 3,220, dated 12th October 1868, forwarding plans and estimates, amounting in the aggregate to

1 Guard-room with wash-house, latrine, and urinal	rs. 18,500
2 Serjeant's quarters, out-houses, cook-rooms, and privies	4,295
3 Packing shed	700
4 Outer porch to the Magazine	1,500
5 Two covered beats for sentries	560
Total	25,575

Rupees 25,575, for auxiliary and subsidiary buildings for the Reserve Powder Magazine at St. Thomas' Mount, as specified on the margin.

2. In reply, I am to notice, with regard to the Guard-room, that the strength of guard necessary appears to be left for determination after the building shall have been erected. But as the size appears unnecessarily large for the assumed number, viz., twelve Europeans and twelve Natives, the area should be reduced so as to give the superficial space per man laid down by the Government of India for Europeans. This will give the Native guard, if of equal strength with the European one, (as appears to be assumed as probable,) somewhat more space than is necessary; but the arrangement of placing the Native guard below, and the European one above, in the same building, necessitates this.

3. It appears to the Government of India that it would be more economical to provide separate guard-houses for the Europeans and Natives, as it cannot be essential for the former to be in an upper story.

4. The width of verandahs should be decreased to ten feet as in the standard plan, it being made twelve feet in the proposed design.

5. The reductions in width of verandahs and in superficial area per man would considerably reduce the amount of the estimate for Guard-room, of which a revised plan and estimate should be submitted.

6. The other buildings included in Items 2, 3, 4, and 5 of the present project, are sanctioned.

7. This sanction has been entered as No. 73 M. of 1868-69 in the Register of this Office.

8. The plans and estimates are returned.

No. 99. ORDER THEREON, 4th December 1868, No. 3,785.

MILITARY WORKS, No. 9.

1. Communicated to the Superintending Engineer of the 4th Division with reference to G. O., No. 3,219, of the 12th October 1868.

2. The Superintending Engineer will, in communication with the Military authorities, take the observations of the Government of India into consideration, and submit fresh plans and estimates for the Guard-room at the new Reserve Powder

Military Works.

To The Secretary to the Government
of Madras in the Public Works Department.

Sinla 7th November 1868

Sir,

I am directed to acknowledge receipt of your letter A-3220 dated 12th October 1868 forwarding plans and estimates amounting in the aggregate to Rs. 25,575 for auxiliary and subsidiary building.

- 1 Guard Room with Wash house, Latrine and Urinal. Rs. 18,500.
- 2 Serjeant's Quarters, out houses, Cook rooms and Privies. 4,295
- 3 Packing shed 700
- 4 Outer porch to the Magazine 1,520
- 5 Two covered beats for sentries 560.

Total Rs. 25,575.

for the reserve Powder Magazine at St. Thomas's Mount, as specified on the margin.

2. In reply I am to notice with regard to the guard room that the strength of guard necessary appears to be left for determination after the building shall have been erected. But the size appears unnecessarily large for the assumed number viz: 12 Europeans and 12 Natives, the area should be reduced.

so as to give the superficial space per man laid down by the Government of India for Europeans. This will give the Native guard, if of equal strength with the European one (as appears to be assumed as probable) somewhat more space than is necessary, but the arrangement of placing the Native guard below, and the European one above, in the same building necessitates this.

3. It appears to the Government of India that it would be more economical to provide separate guard houses for the Europeans and Natives, as it cannot be essential for the former to be in an upper story.

4. The width of corridors should be decreased to 10 feet, as in the standard plan, it being made 12 feet in the proposed design.

5. The reductions in width of corridors and in superficial area per man, would considerably reduce the amount of the estimate for guard house, of which a revised plan and estimate should be submitted.

6. The other buildings included in

items 2, 3, 4 and 5 of the present project are sanctioned.

7. This sanction has been entered as No. 73 M of 1868/69 in the Register of this office.

1868-8

The plans and estimates are returned.
