*Proceedings of the Madras Government, Public Works Department,

Read the following papers :—

No. 123. From the Executive Engineer, in charge of the Superintending Engineer's Office, 8th Division, to the Secretary to Government, Public Works Department, dated Madura, 12th November 1868, No. 1,842.

1. In the list that accompanied your Memorandum, No. 66, of the 28th October 1868, an allotment of Rs. 30,000 is proposed for Subsidiary Jails in the

Madura District, and I have the honor to submit a Statement, showing the distribution of funds that I recommend for expenditure in the current year, in the same form as that required for the Tinnevely District, according to your Memorandum, No. 59, of the 26th October 1868, and the Orders, No. 3,370, of the same date.

2. The four estimates that have been received may be worked out in full. The other sums set down for expenditure are approximate; thus, if the estimates for alterations at Ramnad and Dindigul do not much exceed the proposed allotments, I would rather have these works finished off in the year, leaving only the three entirely new buildings to be carried on in next year. A revised distribution of funds may, therefore, be advisable later on in this year.

3. As authority is given in the Orders of the 26th ultimo, No. 3,370, to put in hand in Tinnevely as many of the works therein approved as can conveniently be commenced, in anticipation of a specific assignment of funds, I beg to have authority to commence works similarly in the Madura District, that is, to put in hand the three Jails, with Cutcherries, on the standard plan at Mudukolator, Tiruchuli, and Percacolum; and likewise to commence the additions and alterations to existing buildings, as soon as the estimates have been examined in my Office.

4. The estimates ought all to come in very shortly, but as there is a good deal of money to be spent, and at several of the stations materials are not readily procurable, I am anxious to lose no time in their preparation.

*Proceedings of the Madras Government, Public Works Department,
5th December 1868.*

No. 124. From the Executive Engineer, in charge of the Superintending Engineer's Office, 8th Division, to the Secretary to Government, Public Works Department, dated Madura, 12th November 1868, No. 1,843.

1. With reference to your Memorandum, No. 59, of the 26th ultimo, I have the honor to forward a Statement of Subsidiary Jail works in Tinnevely District, to be proceeded with under the Orders of 26th October 1868, No. 3,370.

2. I have ordered the commencement of Items 2 and 3, (new Jails and Cutcheries,) on the standard plans at Velatticolum and Ambasamoodrum; but the other works being additions and alterations to existing buildings, I wish to satisfy myself that Range Officers are preparing their estimates in strict accordance with the report of the Subsidiary Jail Committee, before authorising the commencement of work.

3. No estimates have as yet been received; and as the Committee's report is only now published, I imagine the estimates have not been previously put in hand; but judging by comparison with the estimated cost of similar alterations to existing Jails in Madura District, I have set down approximate sums in the column of additional grant required.

4. The distribution of funds proposed in the Statement must be altered hereafter, when the exact amount of the estimates is known, and I have doubts about the allotments set down being fully worked out, such as Rupees 10,000 for Ambasamoodrum; so that, as observed in another letter, No. 1,852, of this day's date, I think it would be advisable to alter the grants for the two districts, so that Rupees 34,300 should be expended in Madura, and Rupees 34,700 in Tinnevely.
