*Proceedings of the Madras Government, Military Department,
1st December 1868.*

Read the following papers:—

No. 44. From the Acting Inspector General of Ordnance and Magazines, to the Secretary to Government, Military Department; dated Fort Saint George, 17th November 1868, No. 251.

I have the honor to report that a barrel making machine was recently obtained from England. In order to bring this machine into work, it is necessary to connect it with the steam engines in use at the Grand Arsenal Forge, but to do this, a portion of the Smiths' Forges must be removed to the⁴berm immediately adjacent, and a building of a slight nature erected for their reception.

2. The approximate cost of the building is estimated at Rupees 1,800 by the Executive Engineer No. 1, or North Range, who states that he is "forbidden by the "Superintending Engineer to furnish any plan in detail" agreeably to paragraph 75 Chapter V of the Public Works Code.

3 I am, therefore, precluded submitting to Government a plan and estimate of the work; but if Government will sanction it, which I strongly recommend, they will be obtained and submitted for approval.

No. 45. With report from the Controller of Mily. Accts., 20th November 1868, B.

No. 46. ORDER THEREON, 1st December 1868, No. 4679.

Communicated to the Public Works Department, in view to a plan and estimate of the proposed work being called for.
