*Proceedings of the Madras Government, Public Works Department,
12th December 1868.*

No. 296. Read the following letter from the Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Arcacode, 19th November 1868, No. 157 :—

The estimate for the new Talook Catcherry at Errode, alluded to in G. O., No. 3,542, of 13th November 1868, provided only for four wards. But in conformity with the list which accompanied your memorandum No. 66, of 28th October, I had already instructed the Caroor Range Officer to build six wards. It is not supposed that the cost of the two additional wards will cause the sanction to be exceeded by more than five per cent. I purpose, therefore, deferring submission of a revised estimate till next official year, when it can be accurately ascertained whether the excess will be such as to require special sanction of Government.
