Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 16th December 1868.

No. 369. Read the following letter from the Acting Superintending Engineer, Presidency Division, Bombay, to the Chief Engineer, Madras, dated Bombay, 5th December 1868, No. 4,195 :—

1. I have the honor to forward copy of an emergent letter from the Executive Engineer for Reclamations, Bombay, No. 1,567, dated 3rd instant, applying for two Centrifugal Pumps, eleven inches, from Madras, (none being procurable in this Presidency,) for pumping out foundations at the Moody Bay Reclamation works.

2. As the pumps *are very urgently* required for the above purpose, I shall feel obliged by your ordering them to be supplied with the least practicable delay, and forwarded to Bombay by the first P. and O. Company's or any other steamer sailing for this port. The pumps may be consigned to Captain T. M. Ducat, R. E., Executive Engineer for Reclamations at Bombay.

3. Expense in transit is no object, as the daily loss for want of pumps is considerable on the Moody Bay works.

From the Executive Engineer for Reclamations, to the Superintending Engineer, Presidency Division, dated Bombay, 3rd December 1868, No. 1,567.

1. I have the honor to request that you will kindly submit an emergent requisition on the Chief Engineer, Madras, for two Centrifugal Pumps, eleven inches, to pump out foundations. Should eleven inch pumps not be easily procurable, one ten inches or ten and half inches, and one large size, would answer my purpose.

2. No pumps are procurable in any part of the Bombay Presidency, but I am informed that they are procurable in Madras, and as my works are seriously delayed for want of pumps, I hope these will be ordered round by the most expeditious route.

No. 370. ORDER THEREON, 16th December 1868, No. 3,917.

ACCOUNT, No. 26.

Ordered that the following letter be sent.

(Here enter No. 3,918, dated 22nd December 1868.
