DECEMBER.

Nos. 384-385

Gun Powder Manufactory.—The Superintending Engineer of the 4th Division requested to submit a plan and estimate for enclosing the new range of quarters occupied by the European work men, &c., attached to the Gun Powder Manufactory, Madras.

Proceedings of the Madras Government, Military Department,
8th December 1868.

Read the following papers:—

No. 221. From the Acting Inspector General of Ordnance and Magazines, to the Secretary to Government, Military Department; dated Fort Saint George, 26th November 1868, No. 262.

Letter No. 426, dated 15th September 1868.

I have the honor to bring to your notice the unenclosed condition of the new range of quarters occupied by the European work-men, &c., attached to this establishment.

2. From want of some enclosure, a thoroughfare is made between the back of the quarters and the boundary of the factory, by persons coming and going across the swamp from the direction of the railway crossing contiguous to the Elephant Gate. This is objectionable, as the rear of these quarters is quite open, it deprives them of privacy, and renders them open to intrusion.

3. In the front, where a number of occupants of the quarters are making praiseworthy attempts to get up gardens, and keep the front of their houses tidy and neat, the want of an enclosure to prevent the intrusion of men and cattle is much felt.

4. On your recently visiting the factory, the unenclosed state of the quarters was brought to your notice, and the advantage of having this space enclosed was, I believe, recognized by you.

5. Under these circumstances, I would solicit that you will submit this matter to the necessary authority, with your recommendation and support, that the quarters may be enclosed; or, that you will have the goodness to inform me, who I should address on this subject.

I have the honor to annex in the margin, copy of a letter from the Superintendent Gun Powder Manufactory, bringing to notice the want of a proper enclosure to the new range of quarters occupied by the European work-men, &c., attached to that establishment.

2. The enclosure is very necessary for the reasons set forth, and I beg to recommend sanction being accorded to the same.

3. The cost of the palisading is estimated at Rupees 1,450; and, on Government approving of the work, the necessary plan and estimate will be submitted for sanction.

No. 222. With report from the Controller of Military Accounts, 30th November 1868, c.

No. 223. ORDER THEREON, 8th December 1868, No. 4768.

Communicated to the Public Works Department.
