SUPERINTENDING ENGINEER'S OFFICE, 4TH DIVISION, }
MADRAS, 23rd October 1868.

5th December 1868.

From the Executive Engineer No. 1 or Northern Range, to the Superintending Engineer, 4th Division, Madras; dated Fort Saint George, 19th September 1868, No. 1075.

In forwarding the enclosed letter* in original, I have the honor to explain that the writer by the terms of a contract made with Captain Goddard on the 12th September 1867, was bound for three years to employ eight carts in removing the sweepings of the Fort to any point within one mile of it. Up to this time he has been

* To be returned.

Enclosure 1.

allowed to deposit the stuff in pits near the elephant gate, but the Municipal authorities have lately forbidden his using that spot, and desired him to convey every thing to the Manally Depot, three and a half miles from the Fort.

2. On enquiry, I find that four carts are employed throughout the day in carrying chunam, brick, rubbish, dust, leaves, &c, which the Overseer says can be without offence thrown into the sea, the other four carts make two trips from the Fort to the pits, conveying cook-room refuse, horse-dung and offensive matter.

3. There is no reason why any extra should be paid for the first four. The contractor will agree to continue under his present obligation, if he be allowed 25 Rupees per cart for the other four, to enable him to provide relays of bullocks for the extra distance which they will have to travel.

4. This being fourteen miles as against four, the charge appears to me but fair. I beg therefore that sanction may be procured for the disbursal of Rupees 36 per month in addition.

5. The present charge is for eight carts at Rupees 16 0-0 128 0 0

The proposed charge will be for four carts at .. 16-0-0 64 0 0

Four	do.	do.	..	25-0-0	100 0 0
