ENCLOSURE No. 1.

ABSTRACT.—Memorandum of Salt works to be executed in the District of Tinnevely during the current official year 1867-68, referred to in the above letter.

1. With reference to your Circular Memorandum, dated 1st August 1867, No. 813, I have the honor to state that a sum of Rupees 1,500 has been already allotted for repairs to the several Salt Gollahs under the sanction of the Board marginally noted. A further sum of Rupees 2,000 may be conveniently reserved for any urgent repairs which may be required towards the end of the year to the above salt sheds, or to the permanent building purchased from the Railway at Beypore which is in a damaged condition.

2. The remainder of the Budget allotment for Salt works in this district, Rupees 8,250, will not be required in this year, and may be assigned for the construction of the Sub-Magistrate's Cutcherry at Cannanore, reported on in my letter, dated 8th August 1867, No. 179, if such transfer of funds is feasible.

Resolved that the foregoing papers be recorded, with reference to the Board's Proceedings, dated 8th October 1867, No. 6,438.

In reply to the Proceedings of the Board, dated the 23rd ultimo, No. 7,631, I have the honor to state that the works provided for in the estimates are original works; they are not for repairs, as erroneously entered by the Department of Public Works on the estimates. It will be observed that they provide for new works such as raising new platforms, erecting shed for bandies to halt, and for watchers, new sheds over gateways, &c. I intend to execute the works from the funds allotted for new Salt works.

1. With reference to the Proceedings of Government, marginally indicated, I am directed by the Board to submit to Government a revised

list of works entered in the Revenue Budget for the current year 1867-68, under "Petty Construction and Repair."

2. In this list, provision has been made for the expenditure, during the current year, of the sum of Rupees 2,00,000 originally estimated. The list of works entered for South Canara and Malabar has been carefully revised, with reference to the contemplated introduction of the excises system on the Western Coast. The apparent double provision made by Government for Salt Koties in South Canara has also been corrected, and provision has been made for fresh works of an emergent character in the Districts of Ganjam and Madras from the savings thus effected.

No. 337.

ORDER THEREON, 20th September 1867, No. 2,204.

Separate Revenue, No. 18.
Salt.

1. Ordered that the detailed list of works submitted with the above letter be forwarded to the Supreme Government, with reference to paragraph 13 of the letter from the Financial Secretary, dated 21st March 1867, No. 1,546, and with the request that sanction may now be given for the full provision of two lacs of Rupees made originally in the Revenue Budget for construction and repair of petty salt works.

2. It will be pointed out that with the exception of a trifling provision of Rupees 200 for each District for emergent petty repairs to Revenue buildings, the whole of the items relate to petty construction and repair of salt works and the approaches to them, on the efficient condition of which the progressive improvement of the Salt Revenue greatly depends, but which work the Departmental Establishments are perfectly competent to execute, without assistance from the Department Public Works.

3. In view of the advanced period of the year, it will be requested that the sanction may be communicated by telegraph.

(True Extract.)

(Signed) W. HUDLESTON,
Secretary to Government.

Communicated to all Collectors, who will be requested to report at once, whether the full amount entered in the Budget for each district can be expended within the official year, and if not, how much.

(True Extracts.)

(Signed) R. A. DALYELL,
Secretary.
