With reference to your letter of the 30th May 1866, informing the late Collector that 5lbs of French Lupine seed had been despatched to his address, I beg to inform you that the seed entirely failed on the plains, but it succeeded on the Pulney Hills on a small plot of ground in Mr. Levinge's garden. The ground was slightly manured, and the seed sown in drills. The produce does not appear to have been made any use of.
