Proceedings of the Madras Government, Revenue Department,
18th March 1868.

No. 286. Read the following letter from the Secretary to the Board of Revenue, to the Secretary to Government, Revenue Department, Fort St. George, dated Madras, 22nd February 1868, No. 1,325 :—

I am directed to report that the Board have now under consideration several applications for supplies of water from the Government streams on the Neilgherry Hills. Before disposing of them, they beg to propose to Government that the gentlemen noted in the margin be requested to favor the Board with their views as to how such questions can best be dealt with in the interests of the Government and of the public. It seems to the Board that all persons having residences in the vicinity of Government streams of water should be supplied first with water for domestic purposes, and second, for garden purposes, and that no person should be allowed to monopolize water for general cultivation as distinct from garden. The system on which water shall be supplied and charged for also needs consideration and settlement.
