No 46 Read the following letter from the Officer in charge of Operations, Wynaad, to the Secretary to Government, Public Works Department, dated Luckadie, 1st December 1868, No 650 —
I have the honor to forward an original letter* from Major Raynsford, which
• Dated 27th November 1868, No 95 I shall be obliged by being laid before His Excellency the Governor in Council for decision

From Major F M RAYNSFORD, Range Officer South-East Wynaad, Gudulur, to the Officer in charge of Operations, Wynaad, dated Gudulur, 27th November 1868, No 95

1 I have the honor to address you on a subject which though it may not have an injurious effect in any future plan of mine for taking leave, still it seems to me of importance to moot it now, in the event of my being obliged to take furlough

2 Under the present new rules an Officer is allowed fifty per cent of the allowances which he has drawn for three successive years, now, my case is peculiarly affected by this, as by the rules in the Department of Public Works my maximum salary is Rupees 450, whereas the pay to which I am entitled as Major is Rupees 640,* and it is only

the privilege allowed in the Wynaad which induces me to accept the maximum salary, but if Government were to take this in calculating the allowance drawn by me, and I wished to take furlough after two or three years' service in the Wynaad, my home allowance would be considerably affected, as I should only be entitled to 225£ per annum, instead of 320£, or my fifty per cent on the Major's

allowance as Major in Staff Corps, † and as I cannot depend on promotion in the Department that would give me this equivalent, I shall feel obliged by your representing my case, and to ascertain whether Government would grant me fifty per cent on my Major's pay or on the maximum salary allowed by the rules in the Department of Public Works, as it now exists. It must be clear to Government that my only inducement to stay is the Wynaad allowance, and that if I am not allowed the option of getting my fifty per cent on an allowance which I am entitled to, and of which Government obtain the advantage by the maximum salary rules, that it would make me to consider the advisability of remaining on any longer in a situation which might eventually prove to be my loss

3 In the framing of the new Rules for furlough, such a case as mine probably did not occur to the Committee, or to the Government that sanctioned the Rules, and I shall feel obliged by your either forwarding this letter on to the Secretary to Government in the Public Works Department, or representing the matter as you think most advisable

ESTABLISHMENT, No. 8.

As rule 5 in G. G. O. No 1,064 of 1868 prescribes that the fifty per cent of salary to be drawn by an Officer proceeding on furlough shall not include any extra or special allowances attached to his substantive appointment, it is necessary in determining the amount to which Major Raynsford will be entitled while on furlough, to exclude from the calculation the Wynaad allowances, which, under the Order of the 22nd November 1866, No 3,727, are classed as special, and must cease to be drawn during absence on leave

Sir.

I have the honor to address you on a subject which though it may not have an injurious effect on any future plan of mine for taking leave still it seems to me of importance to hint it now in the event of my being obliged to take furlough.

2 Under the present rules an officer is allowed 50 per cent of the allowances which he has drawn for 3 successive years, now my case is peculiarly affected by this as by the Rules in the Department of Public Works my maximum salary is Rupees 450-0-0 whereas the pay to which I am entitled as Major is Rupees 640-0-0 and it is only the privilege allowed in the Wynand which induces me to accept the maximum salary - but if Government were to take this in calculating the allowances drawn by me - and I wished to take furlough after 2 or 3 years service in the Wynand, my home allowance would be considerably affected as I should only be entitled to 225 £ per annum instead of 320 £ or my 50 per cent on the Major's allowance as Major's Staff Capt. and as I cannot depend on promotion in the Department that would give me the equivalent, I should feel obliged by your representing my case, and to ascertain whether Government would grant me 50 per cent on my Major's pay.

* and probably the staff salary attached to the command of a Wing

* not including the possibility of I preferred military employ the staff allowance for a Wing

Maximum Salary allowed by the Rules in the Department of Public Works - as it now exists - It must be clear to Government that my only inducement to stay is the hybrid Allowance, and that if I am not allowed the option of getting my 50 per cent on an allowance which I am entitled to, and of which Government obtain the advantage by the Maximum Salary Rules, that it would make me to consider the advisability of remaining as any longer in a situation which might eventually prove to be my loss.

3 In the framing of the new Rules for future cases such as mine probably did not occur to the Committee or to the Government that sanctioned the Rules - and I shall feel obliged by your rather forwarding this letter on to the Secretary to Government in the Public Works Department or representing the matter as you think most advisable.
