G.O. No. 1425	Press ~~Mis.~~
757-260 Dated 30-4-	1867

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
30th April 1869.*

No. 759. Read the following letter from the Consulting Engineer for Railways to the Secretary to Government, Public Works Department, dated Madras 15th April 1869, No. 129:—

1. Referring to the Order of Government, dated the 22nd March 1869, No. 953, and to the first two paragraphs of my letter, dated the 19th idem, No. 99, I have the honour to state that, at my request, an estimate has been prepared showing the probable cost of the additional protective works which are considered necessary to secure the line from the effects of a flood in the Naggery river.

2. I learn from the Agent that this estimate amounts to Rupees 1,649; and I beg to be informed whether the Government desire that I should call upon the Agent to carry out the works in question without delay, leaving, for future decision, the liability of the Cavatynugger Zemindar to bear the whole or a part of the expense; or whether a representation should be, in the first instance, made to the Zemindar, with the view of inducing him to undertake the execution of the protective works at his own cost.

3. In my opinion it is in every way desirable that the work should be carried out at once by the agency of the Railway Company. Unless legally compelled to do so, I question whether the Zemindar can be induced to move in the matter. Looking to the magnitude and value of the interests at stake, and comparatively trifling amount of the estimate, any delay in carrying out the works is greatly to be deprecated.

4. I solicit the favour of early instructions.

No. 760.

ORDER THEREON, 30th April 1869, No. 1,425.

RAILWAY, No. 58.

As there appears to be little expectation of the Zemindar of Cavatynugger being induced to undertake the defensive works referred to in this letter, the Government are of opinion that they should be carried out by the Railway Company.

(True Extract.)

Colonel, R. E.,
Secretary to Government.

To the Consulting Engineer for Railways.

Exd. S. T. Augustin.

in question without delay, leaving for future decision
the liability of the Cavy Nuggur Zemindar to
bear the whole or a part of the expense; — or whether
a representation should be in the first instance made
to the Zemindar, with the view of inducing him to
undertake the execution of the protective works at
his own cost.

3. In my opinion it is in every way desirable
that the work should be carried out at once by the
agency of the Railway Company. Unless legally com-
pelled to do so, I question whether the Zemindar
can be induced to move in the matter. Looking to
the magnitude and value of the interests at stake,
and comparatively trifling amount of the estimate,
any delay in carrying out the works is greatly to be
depreciated.

4. I solicit the favour of early instructions.

I have the honour to be
