Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
3rd May 1869.*

No. 45. Read the following letter from the Acting Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 22nd April 1869, No. 438:—

1. Adverting to Order No. 392, dated 6th February 1869, Major Darrah, R. E., Executive Engineer, Southern Range, Presidency, has brought to me a plan of the Hospital for the Body Guard Lines, drawn out by Mr. Chisholm in accordance with the views expressed by His Excellency the Right Honorable the Governor in his Minute, dated January 1869.

1 Plan.
G. O. No. 361, dated 25th January 1869.

2. If this is approved the detailed plans can be made out by the Government Architect, and the estimates prepared in the Range. Should the work be considered of sufficient emergency the foundations can be laid at once; but it would be more satisfactory to have the detailed plans and estimates ready first, as experience has lately shown that we are likely constantly to go wrong in matters of detail without them.

3. The alterations in the Farriers' and Trumpeters' quarters, which are nearly completed, have been going on since February, and the estimates will be submitted shortly.

No. 46. ORDER THEREON, 3rd May 1869, No. 1,448.

MILITARY WORKS, No. 1.

The Superintending Engineer of the 4th Division will obtain, and furnish as early as practicable, detailed plans and estimates for the proposed Hospital for the Body Guard Lines prepared on the design submitted with this letter.
