Colonel, R. E.,
Secretary to Government.

Proceedings of the Madras Government, Judicial Department,
20th April 1869.

No. 252. Read the following letter from the Subsidiary Jail Committee, to the Chief Secretary to Government, Fort Saint George; dated Madras, 20th March 1869, No. 304.

With reference to paragraphs 86 and 105 of our letter, No. 209, of the 5th November 1868, we have the honor to report on the Subsidiary Jail requirements of the two stations marginally noted in the Bellary District.

Ooruvaconda. Adoni.

2. OORUVACONDA is the station of a Deputy Tahsildar Sub-Magistrate in the Gooty taluq.

3. There are here two buildings, one, Plan A, used as the Sub-Magistrate's Cutcherry, and the other, Plan B, as a Police Lock-up. Both are small buildings situated in the town and incapable of any extension. Their distance from each other is 315 yards.

4. The Police station in which all prisoners are confined is apparently a native house, part of which has been railed off to make wards for prisoners.

5. We recommend that a new Cutcherry and Jail, on the Standard Plan No. 3, should be erected at this station.

6. ADONI.—Here are two buildings, Plan A, the Taluq Cutcherry: and Plan B, the Police station.

7. Of the former the Magistrate, after a personal visit, writes: "I carefully "inspected the Cutcherry, and a more ruinous tumble-down building I have seldom "seen. That part of it which is not in ruins is wholly inadequate in space for the "transaction of public business, and pending the construction of a new office, "I propose to obtain the sanction of Government, through the Board of Revenue, to "rent a private house for the purpose."

8. From the plan it would appear that there are no windows, and that the walls of three sides are of mud.

9. Under these circumstances we consider that a new Taluq Cutcherry and Subsidiary Jail with the usual out-buildings are emergently necessary. The Standard Plan No. 1 should be adopted.

10. The Police station-house adjoins several private dwellings and bazaars. Two main bazaar-streets skirt the northern and eastern sides of the building.

The wards are but two in number, and as no provision is made in the Taluq Cutcherry for prisoners, all persons under trial and convicted are confined in the station house.

Accommodation exists for eleven prisoners. We observe, however, that as many as from thirteen to twenty-one persons have been in prison at one time.

11. It will be a matter of consideration for the Inspector General of Police, whether the Police station will have to be retained after the new jail is built.

12. We have requested the Magistrate to select suitable sites, at both stations, for the new buildings, and to submit plans of them.

13. The Magistrate should be authorized to employ a Sweeper Toty at each station, and to procure cumblies and mats for the prisoners.

Proceedings of the Madras Government, Judicial Department,
20th April 1869.

No. 253. ORDER THEREON, 20th April 1869, No. 652.

On the recommendation of the Committee on Subsidiary Jails, His Excellency the Governor in Council approves and sanctions the erection of new Taluq Cutcheries combined with Subsidiary Jails on Standard Plan No. 1, at Chavaconda, and on Standard Plan No. 1, at Adoni, in the District of Bellary.

2. His Excellency in Council also authorizes the Magistrate to employ a Sweeper Toty at each Jail, and to provide the prisoners with cumblies and mats.

3. Paragraph 11 of the Committee's letter will be referred to the Acting Inspector General of Police for report.

4. A copy of these Proceedings, with the plans furnished by the Committee, will be transferred to the Public Works Department, in view to instructions being issued for the preparation of the requisite estimates.
