*Proceedings of the Madras Government, Public Works Department,  
17th May 1869.*

No. 383. Read the following letter from the Acting Superintending Engineer,  
4th Division, to the Secretary to Government, Public Works Department,  
dated Madras, 7th May 1869, No. 773 —

I HAVE the honour to request that the sanction of Government may be accord-  
ed to the substitution of iron railings  
for wooden palisading at the Central Jail,  
Vellore

1 Plan.

2. The radial wards are nearly completed, and it is most desirable that they  
should be divided off the one from the other. The Superintendent of the Jail is  
most anxious that this should be done at once, as it will enable him to enforce  
better discipline amongst the convicts.

3. The Inspector-General of Jails addressed me on the subject on the 9th  
ultimo, and enclosed a letter from the Superintendent of the Vellore Jail. Colonel  
Wilson approves and suggests the substitution of iron for wood.

4. In G. O., No. 1,475, dated 9th May 1868, the alteration was sanctioned for  
the Trichinopoly Jail. I enclose the plan of the Trichinopoly Jail railings. The  
cost on the design for the Trichinopoly Jail would amount to Rupees 23,000, and  
the cost of a wooden teak-wood palisading Rupees 20,500, making a difference of  
Rupees 2,500. The difference in cost might be slightly reduced by making the  
pillars 1½ feet in place of two feet-square, which I think sufficient. The palisad-  
ing, as now sanctioned, is not sufficiently durable, and might be destroyed by the  
prisoners.

5. If Government will sanction the alteration, orders will be sent to Mr.  
Assistant-Engineer Leggatt to carry out the work at once, and the cost will be  
entered in the estimates of the Jail about to be submitted to Government.

CIVIL WORKS, No. 71.

UNDER the circumstances explain-  
ed in this letter, the Government sanc-  
tion the substitution of iron railings for  
wooden palisading at the Vellore Central Jail. The submission of the estimates for  
the Jail should be expedited.
