Colonel, R.E.,
Secretary to Government.

Proceedings of the Madras Government, Revenue Department, 12th June 1869.

No. 294. Read the following Proceedings of the Board of Revenue, dated 17th May 1869, No. 3,353:—

Read the following letter from the Collector of Kurnool, to the Acting Secretary to the Board of Revenue, dated 20th March 1869, No. 73.

I HAVE the honor to inform you, with reference to Memorandum No. 226, dated 10th March 1869, that I received, with Proceedings of the Board, No.——, dated 26th February 1869, four copies of Government Order, dated 17th November 1868, No. 3,586, but as I had no copy of Government Order, dated 3rd December 1868, No. 3,026, I wrote my letter to the Board, No. 53, dated 2nd March 1869. I now find that the Government Order I had not received a copy of previously, was simply referring the subject of the crossings to the Board of Revenue.

2. I regret much to see that in the 7th section two third-class bridges, and one in the 8th section, have been sanctioned. I look on the construction of these bridges as a serious injustice to the villagers, whose villages the Canal divides, for even with the improvements Captain Mullins has directed to be carried out regarding them, they cannot be made available for the traffic of bandies, the only means of conveying the produce of the fields to the villages. I trust the Board will protest against any crossings being made over or through which a bullock-bandy cannot pass.

3. I beg to bring to the notice of the Board that the crossings Nos. 9, 10, and 11 of Section 8, are in the Cuddapah District, regarding the roads to approach which, the Board should address the Collector of that district.

SUBMITTED to Government in continuation of Board's Proceedings, dated 11th January 1869, No. 164.

2. The Board in their Proceedings, dated 26th February 1869, No. 1,301, called upon the Collector to report, in accordance with paragraph 3 of the Government Order, dated 17th November 1868, No. 3,586, on the roads to be constructed in connection with the crossings. He should do so without delay. They cannot agree in thinking that no crossings should be constructed except for wheeled-traffic. Foot bridges are found useful for crossing Railways and Canals all over the world, and there seems no reason for considering Kurnool as exceptionally situate in this respect. Provision should of course be made for the passage of carts within easy distance of every village.
