*Proceedings of the Madras Government, Public Works Department,
26th July 1869.*

No. 613. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 14th July 1869, No. 1,263.—

In G. O., No. 3,424, of 30th November 1864, an estimate, amounting to Rupees 39,770, was sanctioned for an unmade portion of twenty-seven miles of Trunk Road No. XII. (now No. XVIII.) in the Bellary District between Anantapore and the Cuddapah frontier; but up to this time no allotment of funds has been made.

2 In 1866 some work was done from famine grant, and on other occasions small allotments have been made from the discretionary allowance granted to the Bellary District; but in this year this allowance has been required to make up deficiencies of allotments on other roads. As there seems little chance of money being allotted to carry out the sanctioned estimate, I have the honour to request the sanction of Government to an annual maintenance grant of Rupees 200 per mile, which is the amount sanctioned per mile for the remainder of Trunk Road No. XVIII. in the Bellary District, for entry in future Budgets, with which sum the road might be gradually opened up. The extra amount now applied for will, for twenty-seven miles, be Rupees 5,400.

No. 614. ORDER THEREON, 26th July 1869, No. 2,441.

CIVIL WORKS, No. 90.

THE Government will be prepared to take into consideration the Superintending Engineer's application for the grant of an annual maintenance allowance for the portion of the main line of communication No. XVIII. between Anantapore and the Cuddapah frontier in the Bellary District, on being furnished with the specification and detailed estimate required to be submitted under G. O., No. 2,705, of the 14th September 1865.
