*Proceedings of the Madras Government, Public Works Department,
23th January 1869.*

No. 543. Read the following Endorsement of the Chief Engineer for Irrigation, dated Fort St George, 4th January 1869, No 125 —
Read the following letter from the Officiating Superintending Engineer, 8th Division, to the Chief Engineer for Irrigation and Joint Secretary to Government, Public Works Department, dated Palamcottah, 26th December 1868, No. 2,190

1. I have the honour to request that a sum of Rupees 50,000 may be allotted to the Tinnevely District for the prosecution of the Streevigoontum Anicut works, in addition to the Budget grant of Rupees 58,100. Work on the southern channels has been done to the value of Rupees 25,000 up to this week, while the northern main channel will be carried on next month, as also the manufacture of a large number of bricks. January is the best month for obtaining labour in these parts, and it is expected that the Budget grant will be worked out by the early part of February.

2. At the end of January I shall probably submit a demand for more money, when furnishing statements of savings and demands; and work is being energetically pushed on in several places, in confidence that the Government will provide as much money as we can lay out.

SUBMITTED to Government for orders.

2. It is probable that funds will be available from savings in the allotments to other districts, and as it seems highly undesirable that the progress of the Streevigoontum works should meet with any check, I would recommend that the Superintending Engineer may be assured of receiving the further allotment now applied for of 50,000 Rupees.

Mr. Colonel J. C. Pendergast
Chief Engineer for Irrigation
Salem District 10th 1868
Madras

I have the honor to request that
a sum of Rupees 3,000 may be allotted to
the Pinnerel District for the completion
of the Strongygoontam Ancut works in addi-
tion to the Budget grant of Rs 53,100.
Work on the Southern Channel has been
done to the value of Rupees 25,000 up to
this week, while the Northern main Channel
will be carried on next month, as also the
manufacture of a large number of bricks.
January is the best month for obtaining
labor in those parts; and it is expected
that

that the Budget grant will be worked out
by the early part of February

2 At the end of January, I shall
probably submit a demand for more money,
when furnishing the water engine &
demands, and work is being considerably
pushed on, in several places, so long time
that the Government will find it wise to
money as we can lay out

Yours truly
