[illegible]

The first of these is the  
 fact that the system is  
 not self-sufficient. It  
 requires a constant  
 supply of raw materials  
 and energy. The second  
 is that the system is  
 not sustainable. It  
 requires a constant  
 supply of capital and  
 labor. The third is that  
 the system is not  
 equitable. It requires a  
 constant supply of  
 wealth.
