G.O. No. 3244 Press ~~Mis.~~

1940-41

Dated 7 · 10 1849.

Not to be folded or roughly handled

No. 140. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 20th September 1869, No. 2,299 :—

With reference to G. O., No. 2,943, dated 7th September 1869, I have the honour to forward a list of works for which the Budget allotment for the Godavery District under head "Tools and Plant" has been appropriated.

2. From the list above referred to it will be seen that out of the allotment (Rupees 1,700), Rupees 1,560 have been appropriated, leaving a balance of Rupees 140 to meet unforeseen demands of a petty nature, such as repairing tools, office furniture, &c., &c.

3. The demand of the district on account of "Tools and Plant" amount to Rupees 6,334,* but the grant applied for is only 2,500 Rupees, which is at present absolutely necessary to meet the immediate requirements of Range Officers, and for the difference, *viz.*, Rupees 3,834, a source will be pointed out, if possible, in the latter part of the year.

* *Vide* List.

4. At the same time I should not omit to mention that funds for the Range boats, sanctioned in the order marginally noted, are not provided in the list above alluded to, as a separate application will be made to Government for this purpose when I am in a position to point out a source.

G. O., No. 1,352, dated 1st May 1869.

5. I am of opinion some of the old steamers might be sold with advantage, or transferred to the Upper Godavery Works, as the item of watching them is very heavy, lying as they do now quite useless in the river; another good steamer for the river and canal work is much required, and I would recommend having one with double screws, as she would be far more steady in the water from the greater beam and more useful as a tug.

No. 141. Order thereon, 7th October 1869, No. 3,244.

ACCOUNT, No. 16.

The transfer of Rupees 2,500 from "Repairs" to "Tools and Plant" to meet the increased outlay under the latter head in the Godavery District will be recommended for the sanction of the Government of India.

2. If any of the steamers referred to in para. 5 are not required, the Superintending Engineer should inquire whether they are needed for the Upper Godavery, and on what terms they would be taken over.

(True Extract.)

Colonel, R.E.,
Secretary to Government.
