No. 146. Read the following Proceedings of the Madras Government in the Financial Department:—

Communicating a telegram from the Viceroy, reducing the ordinary Public Works grant for this year by 14¼ lacs. (Here enter 4th October 1869, No. 460.)

No. 147. ORDER THEREON, 8th October 1869, No. 3,247.

ACCOUNT, No. 17.

THE Government of India having summarily struck off Rupees 14¼ lacs from the *Ordinary* grant for Public Works in this Presidency, it devolves upon His Excellency the Governor in Council to determine from what allotments the 9¼ lacs of Rupees, in addition to the sum of Rupees 5 lacs already surrendered in Proceedings of this Department of the 29th ultimo, No. 3,142, can be reduced.

2. Taking into consideration the expenditure upon works, as recorded in the latest accounts received from Range Officers, His Excellency in Council is of opinion that the reduction in question can best be made from the undermentioned allotments, and he accordingly resolves to direct that the sums, aggregating Rupees 9¼ lacs, noted in column 6 of the following Statement, be surrendered to the Government of India:—

Proceedings of the Madras Government, Public Works Department, 8th October 1869.

3. Superintending Engineers will be careful to see that the expenditure of the year is regulated strictly with reference to the reduced grants which are now available, and they will bring specially to notice the name of any officer who, in contravention of the repeated orders of this Government and of the Government of India, may take upon himself to incur expenditure without allotment, or to exceed the grants placed at his disposal. Superintending Engineers will themselves be held responsible that all needful precautions are taken to restrict the outlay on each work to the funds actually available, and to prevent the expenditure of borrowed capital on other than Extraordinary Agricultural works.

4. Superintending Engineers will furnish the Controller of Public Works Accounts with a clear statement, showing from what particular allotments the reduction of ten per cent. on the grant for Repairs under "Communications" can best be made.
