*Proceedings of the Madras Government, Revenue Department,
2nd November 1869.*

No. 37. Read the following Proceedings of the Board of Revenue, dated 7th October 1869:—

Read again letter from the Acting Collector of Nellore, dated 16th October 1868, No. 3,713, recorded in Board's Proceedings, dated 17th November 1868, No. 8,136.

Read again letter from Mr. FRASER, dated 5th August 1869, No. 91, recorded in Board's Proceedings, dated 27th August 1869, No. 6,478.

Read also the following letter from the Executive Engineer, East Coast Canal Range, to the Secretary to the Board of Revenue, dated Mount Road, 21st September 1869, No. 123.

With reference to the Proceedings of the Board of Revenue, No. 6,478, dated 27th August 1869, I have the honour to submit the estimate therein called for.

2. I beg to draw your attention to the fact that the rate of two annas per cubic yard is entered in the estimate on the supposition that the work will be completed before the site of the channel is covered with water. If the site should be covered, the rate will be Annas two and Pies four per yard, increasing the estimate by 453 rupees.

3. The ground is very low, and we cannot now calculate on having more than three weeks of fair weather; and as the canal will be required by the end of next month, or in November, I have to request that sanction will be given as early as possible.

The estimate for excavating a boat-channel between the 4th and 5th Khandams of the Streeharicottah jungle at a cost of Rupees 2,900 will be submitted for the sanction of Government.

2. The expenditure can be met from the Jungle Conservancy Fund of the Nellore District.

No. 38. ORDER THEREON, 2nd November 1869, No. 2,910.

Miscellaneous.

* Proceedings, dated 17th Nov. 1868, No. 8,136.

The Board of Revenue first sanctioned the construction of a boat-basin between the 4th and 5th Khandams of the Streeharicottah jungle, at a cost of Rupees 1,100, and declined* to accede to the proposal of the Executive Engineer to excavate a branch canal in lieu of the basin, on the score of the expense which it will entail. They, however, reconsidered the subject in their Proceedings, dated 27th August 1869, No. 6,478, and, being of opinion that the branch canal is preferable to a basin, submit an estimate, amounting to Rupees 2,900, for the work.

2. The estimate is sanctioned.
