Read the following papers :—

No. 198. Proceedings of the Board of Revenue, dated 19th December 1868, No. 8,928.

Read the following letter from the Collector of Kurnool, to the Acting Secretary to the Board of Revenue, dated 14th July 1868, No. 263.

In continuation of my letter, No. 210, dated 29th May 1868, which is noticed in Board's Proceedings, No. 4,630, dated 23rd June 1868, I have the honour to forward copy of a letter from Mr. Cruickshank, Assistant Collector, regarding the inconveniences caused to the ryots of Satanikota, Nandikotkur Talook, by the Canal works.

From the Assistant Collector, to the Collector of Kurnool, dated Nandikotkur, 10th July 1868, No. 41.

1. I have the honor to bring to your notice a complaint on the part of the ryots of Satanikota, Nandikotkur Talook, as to the great distance they have to go in order to reach their fields, by the former road across the canal being shut up.

2. It appears that by their being prevented from using the former road they will have to go round by the bridge at Allur, a distance of between four and five miles, in order to reach their fields. They have good cause to complain, and I therefore request that you will kindly take steps to procure for them some means of access to their fields at a much less distance from their village. I enclose herewith the petitions (to be returned), and the plan sent up by the Tahsildar.

SUBMITTED for the consideration and orders of Government, in continuation of the Proceedings of the Board, dated 23rd June 1868, No. 4,630.

No. 199. From the Consulting Engineer for Irrigation and Canal Company, to the Secretary to Government, Public Works Department, dated Madras, 5th January 1869, No. 103.

1. In returning the Proceedings* of the Board of Revenue, which were forwarded to me for report with your endorsement of the 4th instant, I have the

honour to inform you that it will be seen on referring to paragraph 8—38th mile—of my last report on the Madras Irrigation and Canal Company's Canal, that I considered a third class bridge necessary for the convenience of the ryots of Satanikota, and I have asked the Agent to obtain a plan and estimate for one, and submit them for sanction as soon as possible.

Procs. Madras Govt., 17th Nov. last, No. 3,586.

2. The Orders of Government, named in your endorsement, were attended to when I inspected the first section of the canal, and the bridges referred to were reported on, and the alterations required noticed in paragraph 3 of the report above-mentioned, miles 12, 14, and 16, and I hope to find, when I visit the canal, a few days hence, that these alterations have been made.

3. I observe that the Assistant Collector's letter, on which the Board's Proceedings are based, was written in July last, since then a ramp has been constructed for the convenience of the villagers, and probably this has sufficed for the present year, during which the depth of water in the canal has been but small.

No. 200. ORDER THEREON, 8th February 1869, No. 397.

IRRIGATION, No. 8.

The foregoing letter from the Consulting Engineer for the Madras Irrigation and Canal Company will be communicated to the Board of Revenue with reference to their Proceedings dated 19th December 1868.
